## Urinal packs

### Ceramics

### + integrated automatic flushing system

#### Qualitative ceramics

All IPEE urinal packs include a high quality, durable ceramic urinal. The minimal yet refined designs of IPEE urinals fit perfectly in every bathroom or washroom. Premium packs (U6) are coated with Hydrofobe+ ceramic glaze. This coating guarantees that products will be easy to clean and will provide perfect hygiene. It offers an ultrasmooth surface where dirt nor bacteria can linger.

#### State-of-the-art technology

IPEE flushing technology is designed and developed to be fully integrated into the back of urinals. It holds all the intelligent features you'd expect from a modern flushing system - and more! Since the flushing systems are mounted completely invisible to the user, they are very resistant to vandalism, making them ideal for commercial sanitary ware.

## Pack editions

### Four trims to fit your needs

Every IPEE pack comes standard with all the features modern sanitary ware requires. However, we understand that sometimes you demand even more.

That's why all of our products are available in four trims: Basic, Standard, Plus or Premium.

#### **Basic - Durability in Every Aspect**

The IPEE U1 features a simple yet high-quality ceramic design combined with an efficient IPEE Mini flushing technology. This package is the perfect choice for locations such as schools, sports clubs, cafés, and similar venues where reliable and durable sanitary solutions are essential.

#### **Standard - Elegant Design, Great Value**

The IPEE U2 combines a slim urinal with the proven IPEE Mini flushing system. With its compact size, the IPEE U2 is the ideal choice for locations where space and budget are limited.

#### **Plus - The Best of Both Worlds**

The IPEE U4 merges refined design with the durable IPEE Mini flushing system. This package offers the optimal combination of high quality and exceptional functionality, making it a perfect fit for various commercial and hospitality settings.

#### **Premium - Make an Impression**

The IPEE U6 combines contemporary design with the IPEE Mini flushing technology. Its rimless design with a water effect ensures optimal hygiene. This design facilitates easy cleaning and maintains perfect hygiene, adding a touch of elegance and prestige to any space.

# U1

## Urinal packs Basic

**No false flushes**

**Overflow prevention**

**Vandal proof**

**No mounting frame required**

### Included in set

- Ceramic urinal
- IPEE Mini flushing system
- Horizontal trap
- Hoses, valve, power adapter, mounting set ...

### Durable ceramics, stable technology

IPEE U1 is the entry-level model of the urinal packs. It combines IPEE Mini flushing technology with a basic, durable ceramic urinal. The adjustable flushing volume can be set using the Smart Key. The IPEE U1 pack is an ideal match for locations such as schools, where affordable, durable sanitary ware is required.
