LIV sanitary ware products are highly functional products produced with durability and the natural environment in mind. They are distinguished by their improved design, elegant shape, high-quality materials and easy installation.

LIV products complement any bathroom as they are developed with you – our users - in mind as well as your satisfaction.

ADVANTAGES OF FLUSHING CISTERNS LIV

Combined Slovenian knowledge and excellent quality of our products that we have been producing and marketing since 1954.

Reliable operation with long guarantee period: 10 years guarantee for concealed and exposed flushing cisterns.

25 years of original spare parts availability for concealed and exposed flushing cisterns.

Frame bearing capacity up to 400 kg (according to NF standard)

Perfectly insulated flushing cisterns with extremely silent filling valve enable remarkably silent function.

LIV products enable very quick and simple installation, suitable for different bathroom ambience and very flexible when speaking about installation methods. Water connection is possible on the left side, the right side or the middle of the back.

LIV flushing cisterns are equipped with dual flushing technique, thus contributing to a more responsible use of drinking water.

Moisture free: flushing cistern are made of high quality material and insulated against condensation.

High endurance: endurance test of the flushing cistern is 200,000 cycles, alternating operation of large and small water flush (according to the requirements of the standards NF 076 and EN 14055).

LIV products are designed in accordance with the latest trends regarding equipment for bathroom and sanitary facilities which includes both mounting solutions that contribute to facilitating the maintenance of excellent purity as well as the use of nature and human friendly materials.

Sanitary electronics provide the optimal solution for hygiene concerns. The touchless flushing system operates with a highly sensitive sensor that detects hand or body movement, triggering the flushing function.

9 CONCEALED SYSTEMS

The concealed systems line is the perfect choice for bathroom and sanitary facilities equipment. Economical and noiseless cistern which ensures outstanding performance. A rich offer of flushing plates it is aesthetically customised to match with the environment according to your wishes.

LIV-FIX WC 7522 DWC PREMIUM

Installation method

Installation in prefabricated walls, pre-wall installation in dry walls, universal installation into solid walls

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm with pre-assembled concealed flushing cistern 7522
Frontal flushing, dual flushing (3/6 l)
Adjustable flushing volume (large quantity of water 5/6/7 l, small quantity of water 3/4 l)
Pre-assembled wall brackets and adjustable support legs (0-200 mm)
Water connection possibility in four positions
Fully insulated against condensation

Special features

Silent mechanical filling valve (noise emission class 1 ISO 3822)
Subsequent shower toilet seat water connection option
Connecting hose for connection to a shower toilet (18 m³/h)
Support legs, equipped with a brake for easier installation, rotating foot plate (90°)
Depth adjustable drain elbow (+/- 20 mm)

The product contains

Concealed flushing cistern equipped with pre-assembled angle valve – top center
Water connection G 1/2
Air extraction connection; Electrical connection box; Toilet bowl insulation; PE wall drain elbow Ø 90 mm with a seal; PE adapter reduction piece Ø 90/110 mm with a seal; Assembly template

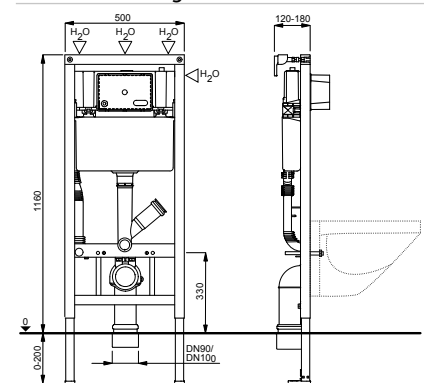

All parts required for installation and mounting are supplied with the product

The flushing plate needs to be ordered separately
CE EN 14055 - CL1 - 6 - NL I - VR I

LIV-FIX WC 7522

Installation method

Installation in prefabricated walls, pre-wall installation in dry walls, universal installation into solid walls

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm with pre-assembled concealed flushing cistern 7522
Frontal flushing, dual flushing (3/6 l)
Adjustable flushing volume (large quantity of water 5/6/7 l, small quantity of water 3/4 l)
Pre-assembled wall brackets and adjustable support legs (0-190 mm)
Water connection possibility in four positions
Fully insulated against condensation

Special features

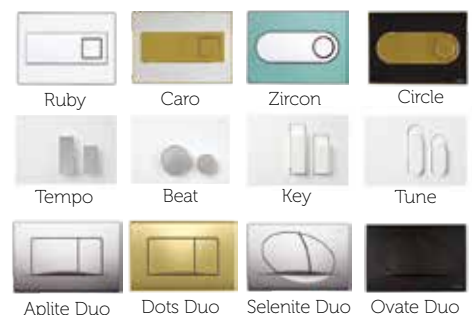

Silent mechanical filling valve (noise emission class 1 ISO 3822)
Depth adjustable drain elbow (+/- 20 mm)

The product contains

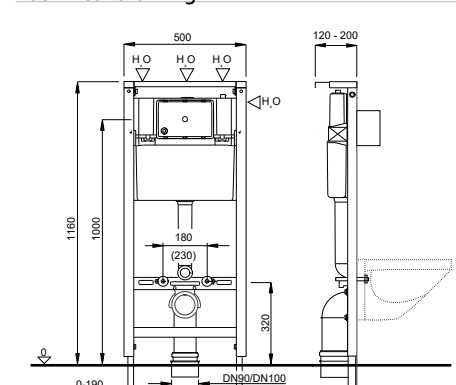

Concealed flushing cistern equipped with pre-assembled angle valve – top center
Water connection G 1/2
PE wall drain elbow Ø 90 mm with a seal
PE adapter reduction piece Ø 90/110 mm with a seal
Assembly template
All parts required for installation and mounting are supplied with the product

The flushing plate needs to be ordered separately

Possible installation of flushing plates:

Identification No.: **601259**

Packaging: 24 pcs/pallet

LIV-FIX WC 9012

Installation method

Installation in prefabricated walls, pre-wall installation in dry walls, universal installation into solid walls

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm with pre-assembled concealed flushing cistern 9012
Frontal flushing, dual flushing (3/6 l)
Adjustable flushing volume (large quantity of water 6/9 l, small quantity of water 3/4,5 l)
Pre-assembled wall brackets and adjustable support legs (0-190 mm)
Water connection possibility in two positions
Fully insulated against condensation

Special features

Silent mechanical filling valve (noise emission class 1 ISO 3822)

The product contains

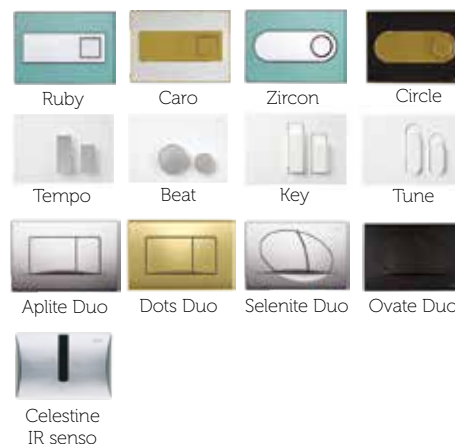

Concealed flushing cistern with a pre-mounted angle valve – top right
Water connection G1/2
PE wall drain elbow Ø 90/110 mm with a seal
All parts required for installation and mounting are supplied with the product

Option: Installation of Celestine, IR flushing plate

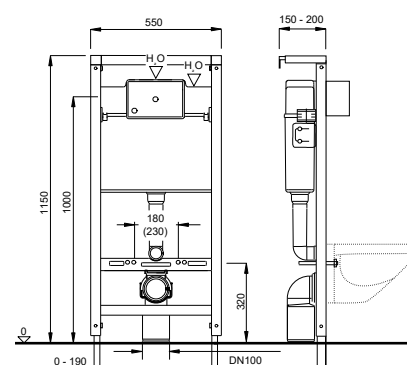

The flushing plate needs to be ordered separately

LIV-FIX WC 9052

Installation method

Installation in prefabricated walls, pre-wall installation in dry walls, for a universal solid universal installation into solid walls

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm with pre-assembled flushing cistern 9052
Frontal flushing, dual flushing (3/9 l)
Adjustable flushing volume (a large quantity of water 7-9 l, small quantity of water 3-6 l)
Pre-mounted fixing elements and adjustable support legs (0-190 mm)
Water connection – top center
Fully insulated against condensation

Special features

Silent mechanical filling valve (noise emission class 1 ISO 3822)
Depth adjustable drain elbow (± 20 mm)

The product contains

Concealed flushing cistern equipped with pre-mounted angle valve – top center
Water connection G 1/2
PE wall drain elbow Ø 90 mm with a seal
PE adapter reduction piece Ø 90/110 mm with a seal
All parts required for installation and mounting are supplied with the product

Identification No.: **7030452701**
Packaging: 28 pcs/pallet

LIV-FIX TOILET 3800

Installation method

Installation in prefabricated walls, pre-wall installation in dry walls, universal installation into solid walls

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm with pre-assembled concealed flushing cistern 3800
Frontal flushing, start-stop flushing (6 l) or dual flushing (3/6 l)
Adjustable flushing volume between 6 and 7,5 l
Pre-mounted fixing elements and flexible support legs (0–200 mm)
Water connection possibility in four positions
Fully insulated against condensation

Special features

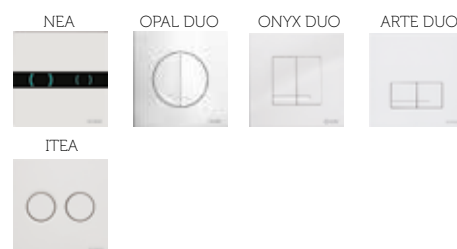

Silent hydraulic filling valve (noise emission class 1 ISO 3822)
Depth adjustable drain elbow (± 20 mm)

The product contains

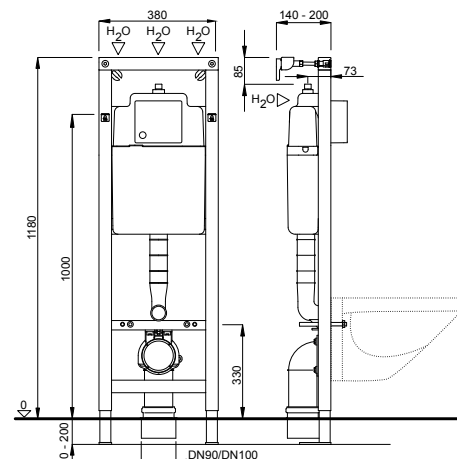

Concealed flushing cistern equipped with pre-mounted angle valve – top center
Water connection G 1/2
PE wall drain elbow $\varnothing 90$ mm with a seal
PE eccentric adapter reduction piece $\varnothing 90/100$ mm with a seal
Assembly template
All parts required for installation and mounting are supplied with the product

The flushing plate needs to be ordered separately

Possible installation of flushing plates:
page 52-60

Technical drawing

LIV-FIX TOILET 6052 83 cm

Identification No.: **7030453003**
Packaging: 16 pcs/pallet

Installation method

Installation in pre-wall installation

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm with pre-assembled flushing cistern 6052
Top or frontal flushing, dual flushing (3/6 l)
Flushing volume between 6 and 7,5 l
Pre-mounted fixing elements and adjustable support legs (0–200 mm)
Water connection – on the left side
Fully insulated against condensation

Special features

Silent hydraulic filling valve (noise emission class 1 ISO 3822)
Suitable for pneumatic and mechanical flushing plates
Depth adjustable drain elbow (± 20 mm)

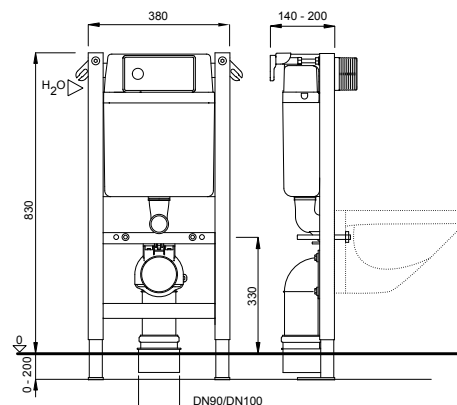

The product contains

Concealed flushing cistern with pre-assembled angle valve – on the left side
Water connection G 1/2
PE wall drain elbow $\varnothing 90$ mm with seal
PE eccentric adapter reduction piece $\varnothing 90/100$ mm with a seal

DUPLO WC 380 L SP

Installation method

Element for pre-wall installation

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm with pre-assembled flushing cistern 380

Frontal flushing, start-stop flushing (6 l) or dual flushing (3/6 l)

Adjustable flushing volume between 6 and 7.5 l

Pre-mounted fixing elements and adjustable support legs (0–200 mm)

Water connection possibility in four positions

Fully insulated against condensation

Special feature

Silent hydraulic filling valve (noise emission class 1 ISO 3822)

Side profiles with multiple connecting water-proof wooden boards – for supporting handles

Depth adjustable drain elbow (± 20 mm)

The product contains

Concealed flushing cistern equipped with pre-assembled angle valve – top center

Water connection G 1/2

PE wall drain elbow $\varnothing 90$ mm with a seal

PE eccentric adapter reduction piece $\varnothing 90/100$ mm with a seal

DUPLO WC 380 VARIO

Installation method

Installation in prefabricated walls, pre-wall installation in dry walls, universal installation into solid walls

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm with pre-assembled flushing cistern Schwab 380 UP

Frontal flushing, start-stop flushing (6 l) or dual flushing (3/6 l)

Adjustable flushing volume between 6 and 7.5 l

Pre-mounted filling elements and adjustable support legs (0–200 mm)

Water connection possibility in four positions

Fully insulated against condensation

Special features

Silent hydraulic filling valve (noise emission class 1 ISO 3822)

Variable height adjustment of the toilet (+ 100 mm) after completed pre-wall installation

Mounting height WC including the seat according to DIN 18040-1/DIN 18040-2: 460 – 480 mm

Depth adjustable drain elbow (± 20 mm)

The product contains

Concealed flushing cistern equipped with pre-assembled angle valve – top center

Water connection G 1/2

PE wall drain elbow $\varnothing 90$ mm with a gasket

PE eccentric adapter reduction piece $\varnothing 90/110$ mm with a gasket

Set with Vario cover plate (PE)

Identification No.: 4060452735

Packaging: 14 pcs/pallet

DUPLO WC 380 L VARIO SP

Installation method

Element for pre-wall installation

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm, with pre-assembled flushing cistern 380

Frontal flushing, start-stop flushing (6 l) or dual flushing (3/6 l)

Adjustable flushing volume between 6 and 7.5 l

Pre-mounted fixing elements and adjustable support legs (0–200 mm)

Water connection possibility in four positions

Fully insulated against condensation

Special features

Silent hydraulic filling valve (noise emission class 1 ISO 3822)

Variable height adjustment of the toilet (+ 100 mm) after completed pre-wall installation

Toilet setting height including the seat according to DIN 18040-1/DIN 18040-2: 460–480 mm

Side profiles with multiple connecting water-proof wooden boards – for supporting handles

Depth adjustable drain elbow (± 20 mm)

The product contains

display*

VARIOTRONIC

Installation method

Pre-wall system, electrically height adjustable and equipped with a concealed flushing cistern 380

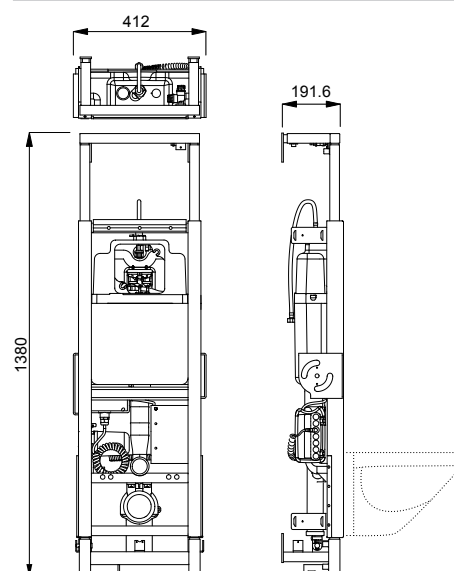

Properties

Supporting, blue powder coated WC element, square profile 40 x 40 mm with pre-assembled concealed flushing cistern 380
Frontal flushing, dual flushing (3/6 l)
Adjustable flushing volume between 6 and 7.5 l
Pre-mounted fixing elements and adjustable support legs (0-200 mm)
Fully insulated against condensation

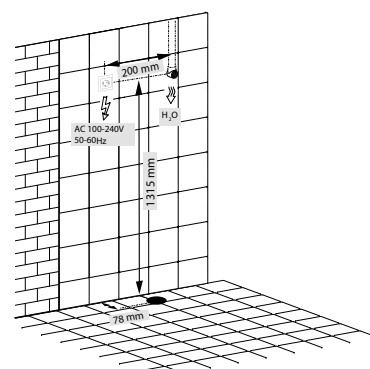

Special features

Silent hydraulic filling valve (noise emission class 1 ISO 3822)
Toilet height can be easily configured by 20 cm (-2 cm/+ 18 cm) using a remote control
The minimum upper edge height of wall-hung toilet bowl is 38 cm
The maximum upper edge height of wall-hung toilet bowl is 58 cm
Static load up to 400 kg
People up to 180 kg can be raised
The system is supplied with sides and top high-quality stainless steel plates
Front element is available in white or black tempered glass
Support handles are available in white colour

Height-adjustable bracket for water connections
Height-adjustable and rotating drain elbow DN 40/50 with a rubber seal for connecting tubes DN 32

The product contains

Threaded rod M12 (180/230 mm)
Protective cap and mounting material

Technical drawing

Identification No.: **7030452911**

Packaging: 18 pcs/pallet

8 1711778 203662

LIV-FIX BD 59 cm

Installation method

For pre-wall installation and installation onto metal wall elements

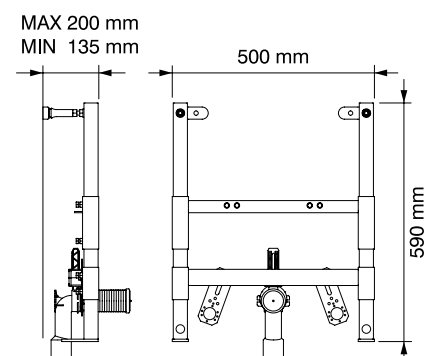

Properties

Supporting, blue powder coated bidet element, square profile 40 x 40 mm
Pre-mounted fixing elements and flexible support legs (0–200 mm)
Height-adjustable bracket for water connections
Height-adjustable and rotating drain elbow DN 40/50 with a rubber seal for connecting tubes DN 32

The product contains

M12 threaded rod (180/230 mm)
Protective cap and mounting material

Technical drawing

Identification No.: **8050452769**

Packaging: 48 pcs/pallet

**LIV-FIX SP****Installation method**

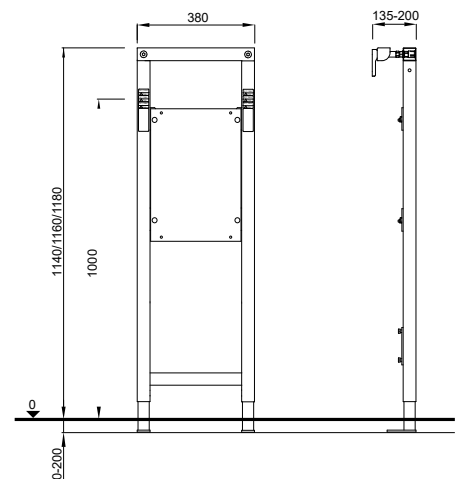

Installation in prefabricated walls, pre-wall installation in dry walls, universal installation into solid walls

Properties

Supporting, blue powder coated support element for support handles/urinal separation panels, square profile 40 x 40 mm
Pre-mounted fixing elements and flexible support legs (0-200 mm)
Height-adjustable bracket for support handles and urinal separation panels mounting

The product contains

All parts required for installation and mounting are supplied with the product

Technical drawing

Identification No.: 8050452997

Packaging: 28 pcs/pallet

**LIV-FIX SK****Installation method**

Installation in prefabricated walls, pre-wall installation in dry walls, universal installation into solid walls

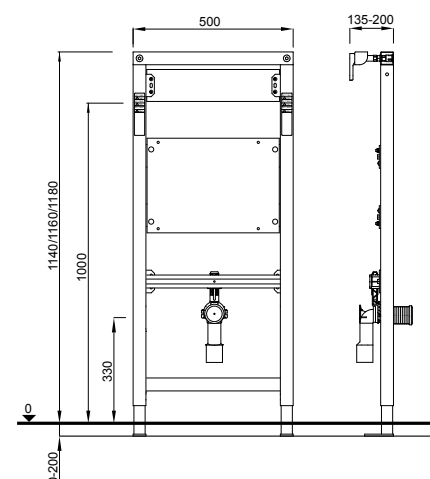

Properties

Supporting, blue powder coated sink element, square profile 40 x 40 mm
Pre-mounted fixing elements and flexible support legs (0-200 mm)
Height-adjustable bracket for sink mounting
Height-adjustable and rotating drain elbow DN 40/50 with a rubber seal for connecting tubes DN 32

The product contains

All parts required for installation and mounting are supplied with the product

LIV-FIX TROCADERO ELEMENT

Installation method

Installation in prefabricated walls, pre-wall installation In drywall, universal solid wall mounting

Properties

Pre-assembled support, surface-protected with powder coating, made of 40 x 40 mm profiles
The flushing element allows the tap installation
The installed hanging bowl (Trocadero), connected to the cistern, allows filling the container with water via tap mounted on the element
Height-adjustable bracket for tap mounting

The product contains

All parts required for installation and mounting are supplied with the product

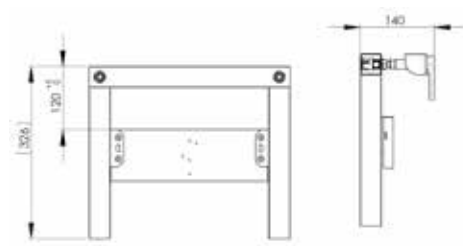

Suitable for mounting on a concealed cistern
LIV-FIX 6052

The concealed cistern and flushing plate needs to be ordered separately

* The flushing element is used in schools, kindergartens, hospitals, new multi-apartment buildings, homes for the elderly, camps, restaurants, industry or wherever there are serviceable areas for cleaning services.

LIV-MOUNT WC 7512 BLOCK

**Installation method**

For pre-wall or solid wall mounting

Properties

EPS toilet element with pre-assembled concealed flushing cistern 7512
Frontal flushing, dual flushing (3/6 l)
Adjustable flushing volume (large quantity of water 5/6/7 l, small quantity of water 3/4 l)
Water connection possibility in four positions
Fully insulated against condensation

Special features

Silent hydraulic filling valve (noise emission class 1 ISO 3822)

The flushing cistern is fully protected in housing made of styrofoam

The product contains

A concealed flushing cistern with pre-assembled angle valve – top right
Water connection G 1/2
PE wall drain elbow Ø 90 mm with a seal
PE adapter reduction piece Ø 90/110 mm with a seal
All parts required for installation and mounting are supplied with the product

The flushing plate needs to be ordered separately

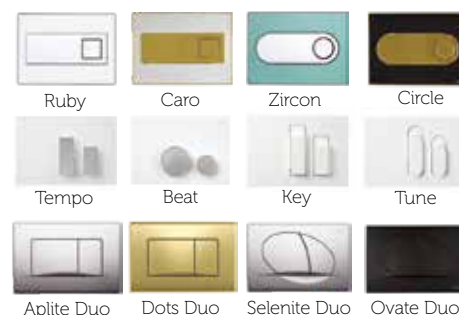

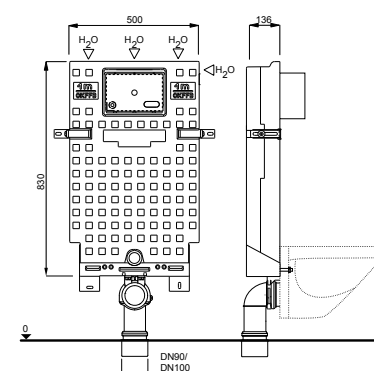

Identification No.: 325703

Packaging: 24 pcs/pallet

Possible installation of flushing plates:

page 47-52

**Technical drawing**

LIV-MOUNT WC 7512 PREMIUM

**Installation method**

For pre-wall or solid wall mounting

Properties

Galvanised toilet element with pre-assembled concealed flushing cistern 7512
Frontal flushing, dual flushing (3/6 l)
Adjustable flushing volume (large quantity of water 5/6/7 l, small quantity of water 3/4 l)
Water connection possibility in four positions
Fully insulated against condensation
Wall-mounting of the flushing cistern is adjustable by depth which allows high installation adjustability

Special features

Silent mechanical filling valve (noise emission class 1 ISO 3822)

Styrofoam insert

The product contains

Concealed flushing cistern equipped with pre-assembled angle valve – top right
Water connection G 1/2
PE wall drain elbow Ø 90 mm with a seal
PE adapter reduction piece Ø 90/110 mm with a seal
All parts required for installation and mounting are supplied with the product

Concealed flushing cistern legs needs to be ordered separately (page 39)

Identification No.: 669930

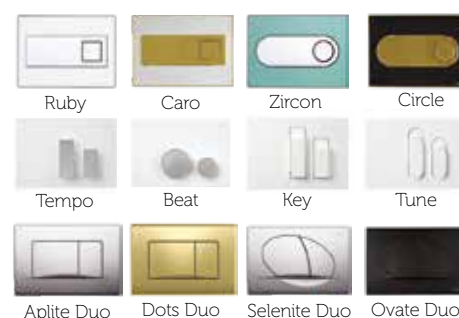

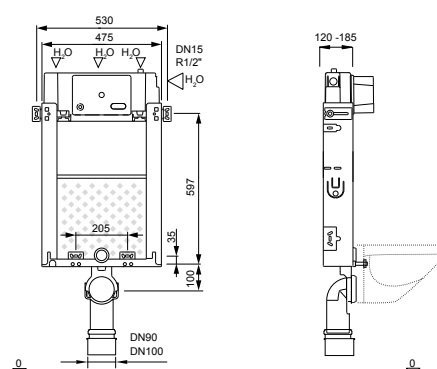

Packaging: 24 pcs/pallet

The flushing plate needs to be ordered separately

41 **SMART SANITARY SOLUTIONS**

We believe in simplicity. Our daily goal is to make your life easier. To streamline your selection and installation experience, we have created packs: a blend of top-notch technology and carefully chosen ceramics.

The best of both worlds, brought together.

Urinal packs

Ceramics

+ integrated automatic flushing system

Qualitative ceramics

All IPEE urinal packs include a high quality, durable ceramic urinal. The minimal yet refined designs of IPEE urinals fit perfectly in every bathroom or washroom. Premium packs (U6) are coated with Hydrofobe+ ceramic glaze. This coating guarantees that products will be easy to clean and will provide perfect hygiene. It offers an ultrasmooth surface where dirt nor bacteria can linger.

State-of-the-art technology

IPEE flushing technology is designed and developed to be fully integrated into the back of urinals. It holds all the intelligent features you'd expect from a modern flushing system - and more! Since the flushing systems are mounted completely invisible to the user, they are very resistant to vandalism, making them ideal for commercial sanitary ware.

Packaging: 1 pcs/carton

Installation method
Flushing plate model NEA/KATION

Properties
Input voltage AC 100–240 V~/
50–60 Hz
Output voltage DC 5 V / 1 A
Cable length approx. 1.8 m

Technical drawing

The product contains
Cover mounting box

8 711 778 199064

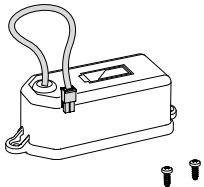

NEA/KATION BATTERY UNIT

Identification No.: 8050883140
Packaging: 1 pcs/carton

Installation method
Flushing plate model NEA/KATION

The product contains
6 V – 4 x 1.5 V AA/LR6 batteries
Includes 4 batteries

Technical drawing

8 711 778 197718

NEA HYDRO GENERATOR

Installation method

With hydro generator the operation of the NEA flushing plate is independent of external power supply (230 V or battery)
The hydro generator is installed in the concealed cistern 3800/380 between angle and fill valve

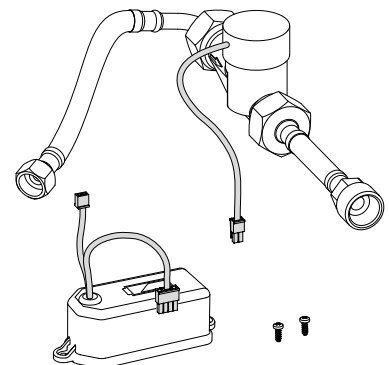

Properties

The hydro generator generates an electric current with each flush and stores it in a special lithium-ion battery

The product contains

Hydro generator for NEA flushing plate
Battery housing with lithium-ion battery
DC 72 V / 1 A
Flexible connection pipes with seals
Non-return valve

Technical drawing

Identification No.: 8050999011
Packaging: 12 pcs/carton

8 711 778 199033

KATION HYDRO GENERATOR

Installation method

With hydro generator the operation of the KATION flushing plate is independent of external power supply (230 V or battery)
The hydro generator is installed in concealed cistern 6052 between angle and fill valve

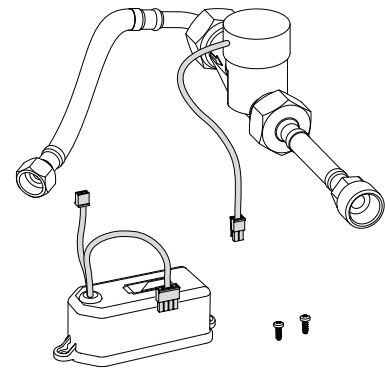

Properties

The hydro generator generates an electric current with each flush and stores it in a special lithium-ion battery

The product contains

Hydro generator for KATION flushing plate
Battery housing with lithium-ion battery
DC 72 V / 1 A
Flexible connection pipes with seals
Non-return valve

Technical drawing

Identification No.: **8050999130**

Packaging: 12 pcs/carton

TELE BLUE

Identification No.: **4060404232**

Packaging: 16 pcs/carton

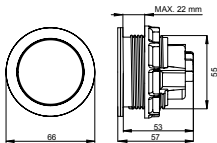

Installation method

Pneumatic triggering suitable for toilet elements 3800 and 380
Used only in combination with the flushing plate ITEA STEEL

Properties

Material: stainless steel

Technical drawing

The product contains

Air hose approx. 2 m

* Check product availability

TELE SCH. + LIFTING UNIT

Identification No.: **4060404238**

Packaging: 16 pcs/carton

Installation method

For use in combination with toilet elements 3800, 380 and 6052

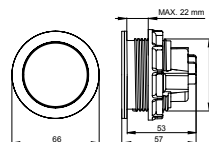

Properties

Material: stainless steel

The product contains

Pneumatic lifting unit is supplied
Air hose approx. 2 m

Technical drawing

* Check product availability

2X TELE STEEL SET

Installation method

Additional triggering with concealed flushing cistern is possible in combination with ITEA STEEL

Properties

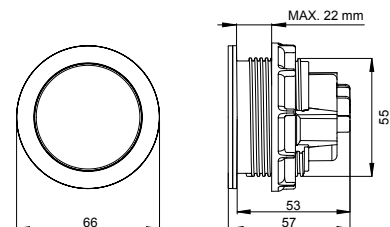

Material: stainless steel
Suitable for support levers with the supporting plate for pneumatic triggering and 56 mm hole diameter
Left and right activation (6 l)

The product contains

Pneumatic lifting unit is supplied
Air hose approx. 2 m

* Check product availability

Technical drawing

Identification No.: **4060404111**

Packaging: 1 pcs/carton

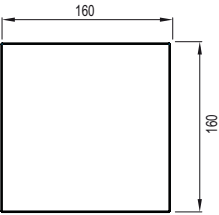

ITEA STEEL COVER PLATE

Identification No.: 4060421119
Packaging: 12 pcs/carton

Installation method
For use in combination with toilet elements 3800 and 380

Properties
Material: stainless steel
Suitable for public sanitary facilities
Suitable as an inspection opening

Technical drawing

EXTENSION SET FOR FLUSHING PLATES

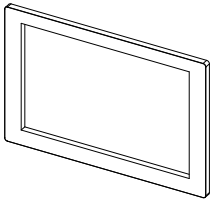

Identification No.: 665728
Properties
Extended mounting bolts and push pins
For use with a wall thickness of 80 - 150 mm
For flushing plates Ruby, Caro, Zircon, Circle, Tempo, Beat, Key, Tune, Aplite Duo, Dots Duo, Selenite Duo, Ovate Duo

FLUSHING PLATE ACCESSORY

Identification No.: 323299

Properties
Assembly set for flushing plates Ruby, Caro, Zircon, Circle, Tempo, Beat, Key, Tune, Aplite Duo, Dots Duo, Selenite Duo, Ovate Duo

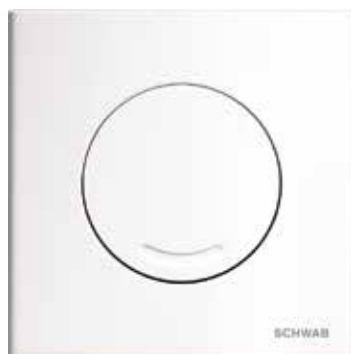

SPACER FOR FLUSHING PLATE APLITE, SELENITE, DOTS AND OVATE

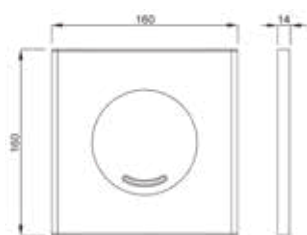

Identification No.: 651770

Properties
Distance plate for flushing plates Aplite, Selenite, Dots, Ovate

Technical drawing

ID No.: 4060414501

ID No.: 4060414531

ID No.: 4060414551

VERIA

Installation method

For mounting on LIV-FIX urinal element with a flushing function

Properties

Material: high-quality plastic

Colour: white, matt chrome, gloss chrome

For LIV-FIX urinal element (ID No. 8050452777 - LIV-FIX UR MECH. PL)

Special features

Simple installation and maintenance

The product contains

All parts required for mounting are supplied with the product

Model	Colour	ID No.	EAN code

**CELESTINE, IR FLUSHING PLATE, 230 V****Installation method**

For mounting on concealed flushing cistern 9012

Properties

Hygienic non-contact infrared technology flushing
Stainless metal front panel (CrNi) secured against vandalism
Flushing activation is automatic or by moving your hand towards the sensor
Adjustable flushing time from 1 to 30 seconds
Adjustable sensor sensitivity from 25 to 70 cm

Special features

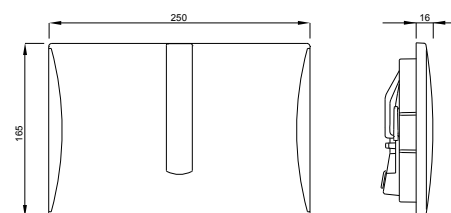

IR flushing activation
Power supply: 230 V/50 Hz
Operating voltage: 24 V DC
In case of IR flushing plate assembly, angle valve of concealed flushing cistern should be positioned top right

Identification No.: **195080**

Packaging: 1 pcs/carton

The product contains

Front panel
Control electronics
Electric lifting device for drainage set
Low-voltage servomotors
Control and reception part with distance detection and background glare prevention
Parts for mounting flushing plates and electronics
Transformer

Technical drawing**CELESTINE, IR FLUSHING PLATE, BATTERY, 9 V****Installation method**

For mounting on concealed flushing cistern 9012

Properties

Hygienic non-contact infrared technology flushing
Stainless metal front panel (CrNi) secured against vandalism
Flushing activation is automatic or by moving your hand towards the sensor
Adjustable flushing time from 1 to 30 seconds
Adjustable sensor sensitivity from 25 to 70 cm

Special features

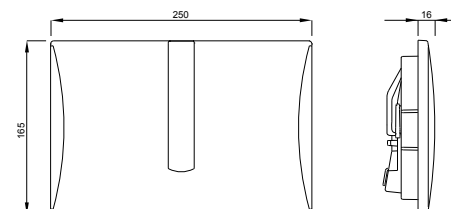

IR flushing activation
Battery powered: 9 V
In case of IR flushing plate assembly, angle valve of concealed flushing cistern should be positioned top right

Identification No.: **223767**

Packaging: 1 pcs/carton

The product contains

Front panel
Control electronics
Electric lifting device for drainage set
Low-voltage servomotors
Control and reception part with distance detection and background glare prevention
Parts for mounting flushing plates and electronics
Battery

Technical drawing**HALITE, IR FLUSHING PLATE FOR URINAL, 230 V****Installation method**

For installation onto LIV-FIX elements with a non-contact flushing function

Properties

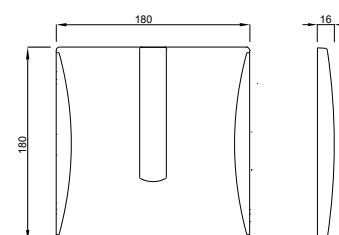

Stainless metal front panel secured against vandalism
Power supply: 230 V/50 Hz
Rated voltage: 230 V AC
Operating voltage: 24 V DC
Automatic detection of user
Adjustable flushing time: from 1 to 30 seconds
Adjustable sensor sensitivity: from 25 to 70 cm
Protection in case of a power failure
For LIV-FIX urinal element (ID No. 4060452775)

The product contains

Front panel
Control electronics

Control and reception part with distance detection and background glare prevention
Parts for mounting flushing plates and electronics
Transformer

Option: Installation directly into solid wall

HALITE, IR FLUSHING PLATE FOR URINAL, BATTERY**Installation method**

For installation onto LIV-FIX elements with a non-contact flushing function

Properties

Stainless metal front panel secured against vandalism

Battery powered: 9 V

Operating voltage: 9 V DC

Automatic detection of user

Adjustable flushing time: from 1 to 30 seconds

Adjustable sensor sensitivity: from 25 to 70 cm

For LIV-FIX urinal element (ID No. 4060452779)

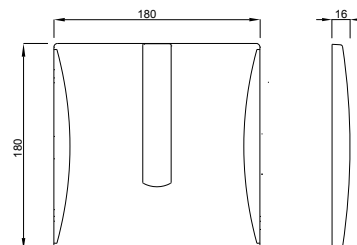

The product contains

Front panel

Control electronics

Control and reception part with distance detection and background glare prevention
Parts for mounting flushing plates and electronics battery

Option: Installation directly into solid wall

Technical drawing

Identification No.: 229581

Packaging: 1 pcs/carton

TECH P, IR URINAL FLUSH PLATE, 230 V, BRIGHT CHROME**Installation method**

For installation onto element with a non-contact flushing function

Properties

High-quality plastic front panel, gloss chrome

Power supply: 230 V/50 Hz

Rated voltage: 6 V DC

Automatic detection of user

Adjustable flushing time: from 1 to 30 seconds

Adjustable sensor sensitivity: from 25 to 70 cm

Protection in case of a power failure

For urinal element (ID No. 2101F-0169-30)

The product contains

Front panel

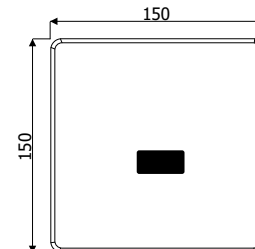

Control electronics

Control and reception part with distance detection and background glare prevention

Parts for mounting flushing plates and electronics

Transformer

Option: Installation directly into solid wall

ROUGH INSTALLATION SET FOR FLUSHING PLATES TECH AND TECH P (IR)

Installation method

For installation onto element with a non-contact flushing function

Properties

For infrared flushing plate for urinal, 230 V/50 Hz (ID No. 2592Y-0170-30, 2592Y-0171-30) or 9 V (ID No. 2592Y-0172-30, 2592Y-0173-30)
Power supply: 230 V/50 Hz or 9 V (battery)
Operating voltage: 6 V DC
For urinal element (ID No. 2101F-0169-30)

The product contains

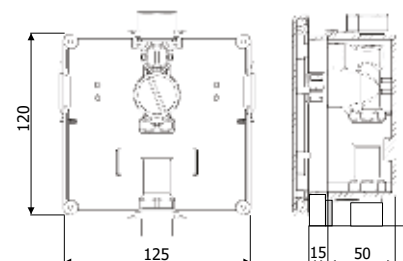

Housing set with fixing elements
Protective set cover
Electromagnetic valve 6 V DC
"Water particle filter with the possibility of filter cleaning"
Mechanical angle valve
Water connection DN 15 (G 1/2)

Identification No.: 2903S-0174-30

Packaging: 8 pcs/carton

Option: Installation directly into solid wall

ROUGH INSTALLATION SET FOR HALITE, IR FLUSHING PLATE FOR URINAL, BATTERY

Installation method

For mounting on LIV-FIX urinal element with a non-contact flushing function

Properties

For infrared flushing plate for urinal, 9 V (ID No. 229581)
Battery powered: 9 V
Operating voltage: 9 V DC
For LIV-FIX urinal element (ID No. 8050452751)

The product contains

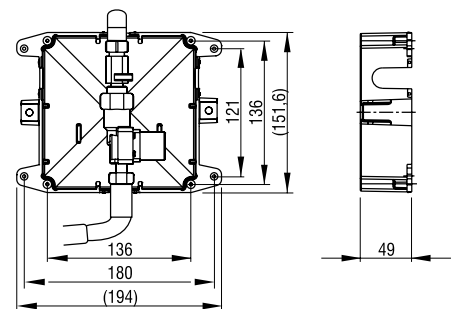

Housing set with fixing elements
Protective set cover
Solenoid valve: 9 V DC
Water particle filter with a filter cleaning option
Mechanical angle valve
Water connection DN 15 (G 1/2)

Identification No.: **382879**

Packaging: 1 pcs/carton

Option: Installation directly into solid wall

Technical drawing

IR FOR URINALS, EXPOSED, BATTERY

Installation method

Exposed installation, connection to the urinal

Properties

For non-contact flushing of urinals – automatically
Automatic user detection
Adjustable flushing time: from 1 to 30 s
Adjustable sensor sensitivity (from 5 to 70 cm)
Protection in case of an empty battery
Connecting to the water supply: rear

Special features

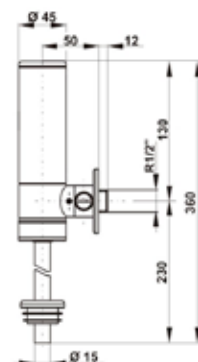

Infrared management
Battery powered: 9 V
Operating voltage: 9 V DC
Water connection DN 15 (G 1/2)

The product contains

Housing set with fixing elements
Control electronics

Control and reception part with distance detection and background glare prevention
Solenoid valve 9 V DC
Water particle filter with a filter cleaning option
Battery

6(6 –9) l flushing volume

Possibility to connect the water supply: left, right

Partially insulated against condensation

Colour: white

Special features

Flushing system in the center

Silent hydraulic fill valve

The product contains

Flexible connecting tube

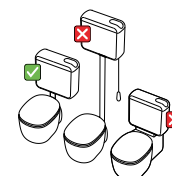

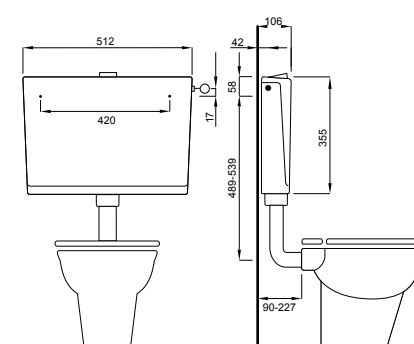

Flushing pipe 270 x 220 mm, Ø 50/44 mm

All parts required for installation and mounting are supplied with the product

FILL VALVE 747, brass shank G 3/8

Purpose

Suitable for concealed and exposed flushing cisterns

Suitable for ceramic cisterns

Properties

Compact and durable hydraulic filling valve

Side mount valve

Suitable for high and low pressure (restrictor added in the shank)

Extremely quiet operation (Class 1)

Short filling time

Water level adjusting screw

Anti-corrosion material

Unique self-cleaning valve mechanism

Fast and easy to install

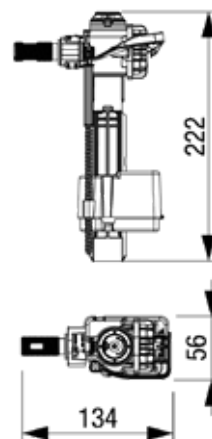

Proven and reliable quality

Consistent performance

Technical specifications

Brass shank G 3/8 x 39 mm

Packing: 40 pcs./carton

FILL VALVE HDV, brass shank G 3/8

Purpose

Suitable for concealed and exposed flushing cisterns

Properties

Extremely robust and durable mechanical filling valve

Side mount valve

Suitable for high and low pressure

Resistant to small-sized particles in inflow water

Extremely quiet operation (Class 1)

Short filling time

Water level adjusting screw

Fast and easy to install

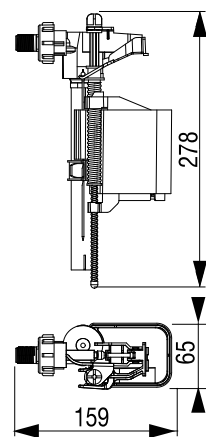

Proven and reliable quality

Consistent performance

Technical specifications

Brass shank G 3/8 x 21 mm

FILL VALVE 400, brass shank G 1/2

Purpose

Suitable for exposed plastic and ceramic flushing cistern with bottom water connection

Properties

Bottom mount valve
Adjustable valve height (230 – 355 mm)
Suitable for high and low pressure
Extremely quiet operation (Class 1)
Fast filling time
Unique self-cleaning valve mechanism
Fast and easy to install
Proven and reliable quality
Consistent performance

Technical specifications

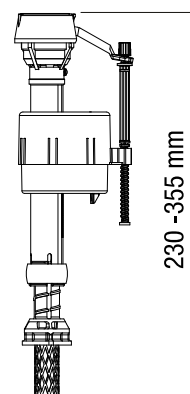

Brass shank G 1/2 x 50 mm

Identification No.:

400U-026-P25

Packing: 25 pcs./carton

FLUSH VALVE 550, outlet pipe G 2

Purpose

Suitable for ceramic close coupled (monoblock) cisterns

Properties

Dual flush valve with mechanical activation
Full and partial flush option available
Adjustable overflow height (215,9 – 342,9 mm)
Cable length 550 mm for maximum flexibility
Easily activated with dual flush button
Possibility of installing the activation button in different positions of the cistern (top, front, side)
For cistern button hole Ø 18 – 40 mm
Adjustable for many ceramic cisterns
Long lasting silicone seal
"Twist & Release" action for simple maintenance
Robust design
Fast and easy to install
Proven and reliable quality
Consistent performance

Technical specifications

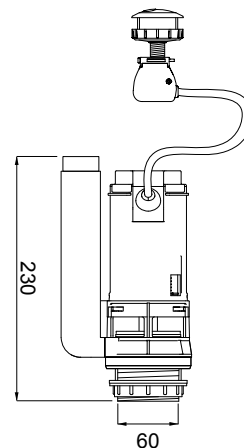

Outlet pipe G 2

Identification No.:

550B-005-P15

Packing: 15 pcs./carton

Technical drawing

FLUSH VALVE 820, outlet pipe G 2

Purpose

Suitable for ceramic close coupled (monoblock) cisterns

Properties

Dual flush valve with mechanical activation
Full and partial flush adjustment available
Height adjustable flush valve (274 – 394 mm)
Installation of activation button in the middle of upper part of the cistern
Diameter of activation button 38 mm
Top central button position
"Twist & Release" action for simple maintenance
Long lasting silicone seal
Fast and easy to install
Proven and reliable quality
Consistent performance

91 TOILET SEATS

The range of different toilet seats from LIV program provides a suitable solution for various sanitary facilities. Extremely resistant toilet seats are made of high-quality plastics and most of them have stainless metal hinges. They are suitable for wall-hung and floor mounted toilet bowls.

Most of them are equipped with soft closing mechanism and quick release system, all of them with eccentric adjustable hinges.

Top fix mounting ensures that the toilet seat can be mounted quickly and comfortably.

All toilet seats are carefully tested for strength according to the DIN 19516: 2005-05 standard and pass an endurance test according to the NF 240 standard.

CONNECTOR 303

Identification No.: 7011120980

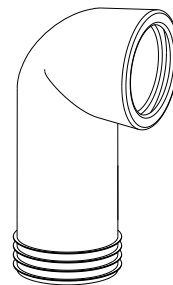

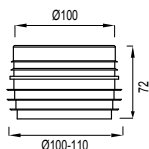

Packaging: 120 pcs/carton

Properties

Connector for floor mounted toilet bowl
For $\varnothing 100 \text{ mm}/\varnothing 110 \text{ mm}$ tube
Length = 72 mm
Colour: white

Technical drawing

WC DISCHARGE ELBOWS no. 301A

Identification No.: 7010120220

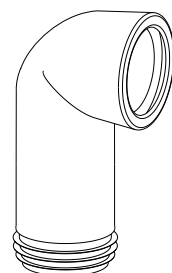

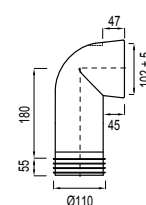

Packaging: 25 pcs/carton

Properties

Connector for floor mounted toilet bowl
Length 180 mm
110 mm tube diameter
Colour: white

Technical drawing

WC DISCHARGE ELBOW no. 303C

Identification No.: 7010121440

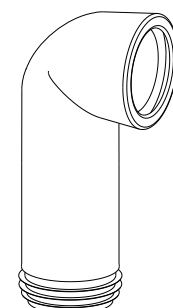

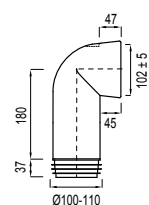

Packaging: 25 pcs/carton

Properties

Connector for floor mounted toilet bowl
Length 180 mm
110 mm tube diameter
Colour: white

Technical drawing

WC DISCHARGE ELBOW no. 303E

Identification No.: 7010121460

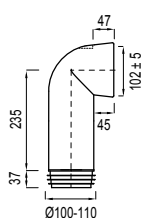

Packaging: 20 pcs/carton

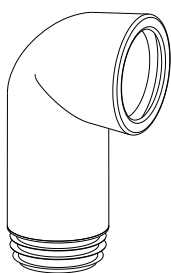

Properties

Connector for floor mounted toilet bowl
Length 235 mm
110 mm tube diameter
Colour: white

Technical drawing

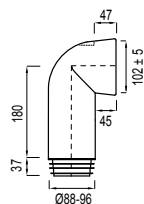

WC DISCHARGE ELBOW no. 302C

Identification No.: 7010121360
Packaging: 25 pcs/carton

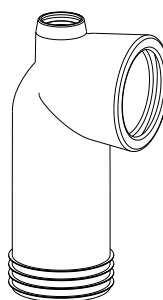

Properties

Connector for floor mounted toilet bowl
Length 180 mm
98 mm tube diameter
Colour: white

Technical drawing

8 711778 048249

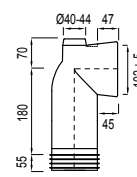

WC DISCHARGE ELBOW no. 301K

Identification No.: 7010120950
Packaging: 25 pcs/carton

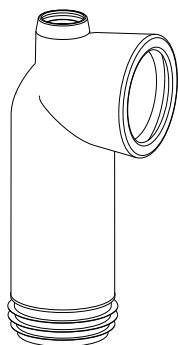

Properties

Connector for floor mounted toilet bowl
Length 180 mm
110 mm tube diameter
Elbow with an additional extension 40 mm, for fountains or ventilation traps
Colour: white

Technical drawing

8 711778 048255

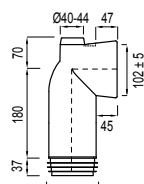

WC DISCHARGE ELBOW no. 303M

Identification No.: 7010121480
Packaging: 25 pcs/carton

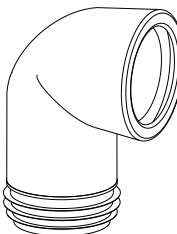

Properties

Connector for floor mounted toilet bowl
Length 120 mm
110 mm tube diameter
Elbow with an additional extension 40 mm, for fountains or ventilation traps
Colour: white

Technical drawing

8 711778 048423

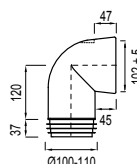

WC DISCHARGE ELBOW no. 303B

Identification No.: 7010121430
Packaging: 30 pcs/carton

Properties

Connector for floor mounted toilet bowl
Length 120 mm
Tube width 110 mm
Colour: white

Technical drawing

8 711778 048324

FLEXIFON TUBE

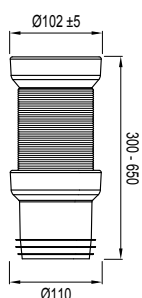

Flexible drain pipe Ø 100 mm
Identification No.: 1409986091
Packaging: 24 pcs/carton

Flexible drain pipe Ø 110 mm
Identification No.: 1409986087
EAN code: 8711778108905
Packaging: 24 pcs/carton

Properties

Easy installation with flexible tube
2 connections
Without the use of adhesive
Adjustable from 300 to 650 mm
Reinforced with internal steel spiral structure
For 110 mm or 100 mm tubes
Colour: white

Technical drawing

8 711778 119840

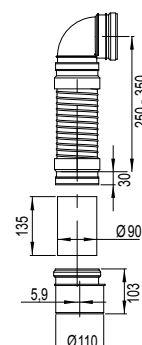

FLEXIFON BUILT-IN

Identification No.: 8050390086
Packaging: 15 pcs/carton

Properties

Flexible drain elbow
Universal for all concealed systems
With Ø 90/110 mm reduction
Colour: black

Technical drawing

8 711778 139220

107 **LINEAR SHOWER DRAINS**

Linear shower drains are accessories for modern interior bathrooms, sauna and relaxation areas where the aesthetic and technical requirements dictate the choice of highly functional and adjustable products.

111 **LINEAR SHOWER DRAINS**

118 **GRIDS**

120 **ACCESSORIES**

Linear shower drains are accessories for modern interior bathrooms, sauna and relaxation areas where the aesthetic and technical requirements dictate the choice of highly functional and adjustable products. Their main advantages are easy installation, maintenance and use of barrier-free areas.

LINEAR SHOWER DRAIN – PERFECTION IN DETAILS

ADVANTAGES OF LINEAR SHOWER DRAINS

- Modern design
- Damage resistance
- Low building height: from 65 mm
- Flow rate according to EN 1253-2:
35 - 52 l/min (depending on the model)

- Combined siphon: water level / anti-odour dry flaps (depending on the model)
- Load capacity K3 (300 kg)
- Stainless steel grid in matt according DIN 1.4301
- Dimensional series: from 350 mm to 1050 mm
- Easy disassembly for cleaning siphon
- Frame height 15 mm, for ELEGANCE adjustable from 15 mm to 23 mm
- 6 different designs of grids (models with drain connection Ø 50 mm available only in design STANDARD/CUSTOM)
- Linear shower drain height adjustable
- Self-adhesive insulation foil included

LINEAR SHOWER DRAIN, PLASTIC FRAME

Installation method

Floor installation

Properties

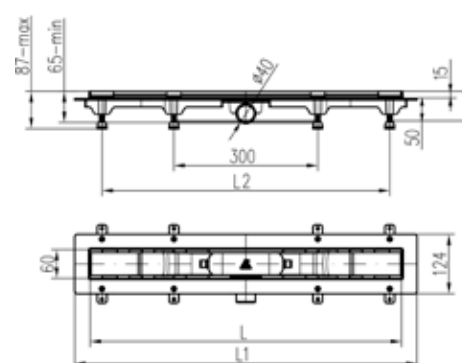

Modern design
 Damage resistance
 Height adjustment 65–87 mm
 Flow rate 35–38 l / min. according to EN 1253-2
 Load capacity K3 (300 kg)
 Dimensional series 350, 450, 650, 750, 850 mm
 Easy disassembly for cleaning siphon
 Frame height 15 mm
 6 different designs of grids

Special features

Low building height - 65 mm
 Drain connection Ø 40 mm
 Combined siphon: water level / dry flap
 1.5 mm stainless steel grid in matt according to DIN 14301

The product contains

All parts required for installation and mounting are supplied with the product

121 DISCHARGE VALVES AND TRAPS

Key features of the LIV trap programme are easy accessibility, easy maintenance and solutions intended for different purposes.

124	DISCHARGE VALVES
126	SINK TRAPS - SINGLE
129	SINK TRAPS - DUAL
130	SPECIALLY DESIGNED TRAPS FOR SINKS
131	DEDICATED SANITARY TRAPS

Simple accessibility, spatial consideration, easy maintenance and solutions for various applications are the main features of the traps program.

The traps are made of quality PP material and are very resistant to high temperatures and cleaning agents. The high flow rate of traps in combination with easy cleaning offers to the user a reliable and safe long-term use.

DISCHARGE VALVES AND TRAPS – RELIABILITY AND QUALITY

Below we introduce a wide range of traps for different purposes. To make choosing the right trap easier, the legend of the most important selection elements will help you.

Sink trap - single

Sink trap - dual

Trap with round overflow

Trap with rectangular overflow

Washing machine trap

Trap with a dishwasher/washing machine connector

Trap with a Ø 70 mm grid for sinks with a Ø 52 mm opening

Trap with a Ø 115 mm diameter for sinks with a Ø 90 mm opening

Ø 60 mm grid diameter

Ø 70 mm grid diameter

Ø 80 mm grid diameter

Ø 115 mm grid diameter

Trap without a discharge valve

Washbasin trap

Bidet trap

Urinal trap

Bathtub trap

Shower trap

Air-conditioner trap

Floor drain

Identification No.: **196932**

Weight: 78 g

Packaging: 30 pcs/NZ-8

SINK DISCHARGE VALVE, GRID Ø 70 mm

Purpose

For sinks

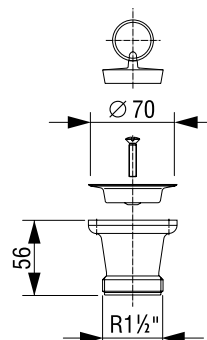

Properties

Installation on a sink
Discharge valve made of PP material
Stainless steel grid
Drain plug

Technical data

Sink opening: Ø 52 mm
Stainless steel grid: Ø 70 mm
Connection: 38.10 mm (1 1/2")

Technical drawing

Identification No.: **197042**

Weight: 202 g

Packaging: 30 pcs/NZ-7

SINK DISCHARGE VALVE, GRID Ø 115 mm

Purpose

For sinks

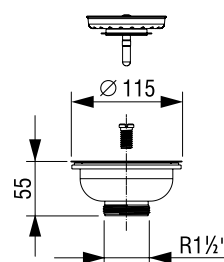

Properties

Installation on a single sink
Discharge valve made of PP material
Stainless steel grid

Technical data

Sink opening: Ø 90 mm
Stainless steel grid: Ø 115 mm
Connection: 38.10 mm (1 1/2")

Technical drawing

Identification No.: **195660**

Weight: 59 g

Packaging: 30 pcs/NZ-7

WASHBASIN DISCHARGE VALVE, GRID Ø 60 mm

Purpose

For washbasins

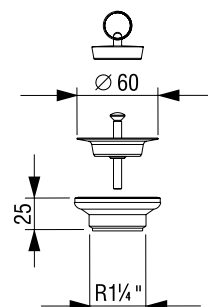

Properties

Installation on a washbasin
Discharge valve made of PP material
Stainless steel grid
Drain plug

Technical data

Stainless steel grid: Ø 60 mm
Connection: 38.10 mm (1 1/4")

Technical drawing

Identification No.: **195360**

Weight: 75 g

Packaging: 80 pcs/SPV

SPACER WITH A ROUND OVERFLOW

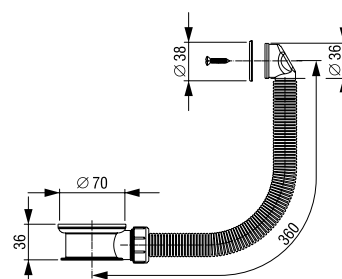

Purpose

For washbasins with round overflow

Properties

Installation on a washbasin
Spacer made of PP material
Stainless steel grid
Round overflow

Technical drawing

Identification No.: 195336

Weight: 72 g

Packaging: 50 pcs/SPV

SPACER WITH ROUND OVERFLOW

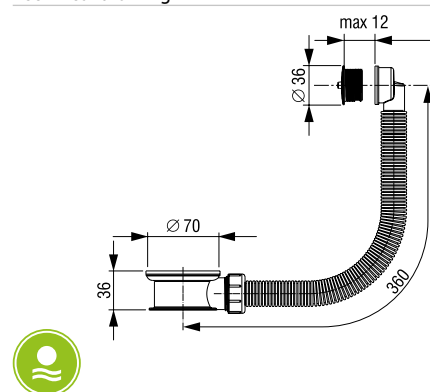

Purpose

For washbasins with round overflow

Properties

Installation on a washbasin
Spacer made of PP material
Stainless steel grid
Round overflow

Technical drawing

3 1838912 120403

Identification No.: 195340

Weight: 129 g

Packaging: 80 pcs/SPV

SINK DISCHARGE VALVE, GRID Ø 70 mm, FLEXIBLE ROUND OVERFLOW

Purpose

For sinks with round overflow

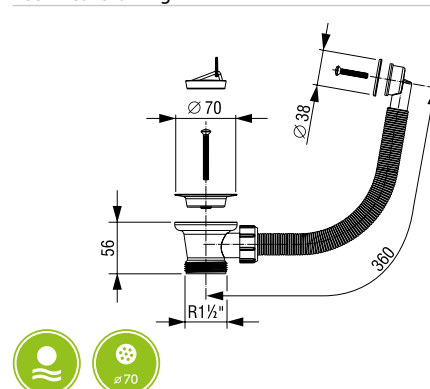

Properties

Installation on a sink
Discharge valve made of PP material
Stainless steel grid
Drain plug
Round overflow

Technical data

Sink opening: Ø 52 mm
Stainless steel grid: Ø 70 mm
Connection: 38.10 mm (1 1/2")

Technical drawing

3 1838912 120618

Identification No.: 195341

Weight: 140 g

Packaging: 75 pcs/SPV

SINK DISCHARGE VALVE, GRID Ø 70 mm, FLEXIBLE RECTANGULAR OVERFLOW

Purpose

For sinks with rectangular overflow

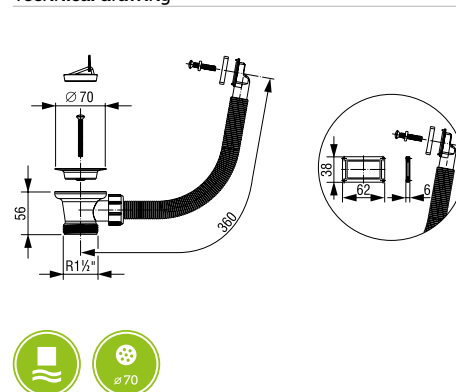

Properties

Installation on a sink
Discharge valve made of PP material
Stainless steel grid
Drain plug
Rectangular overflow

Technical data

Sink opening: Ø 52 mm
Stainless steel grid: Ø 70 mm
Connection: 38.10 mm (1 1/2")

Technical drawing

3 1838912 120625

Identification No.: 195342

Weight: 274 g

Packaging: 50 pcs/SPV

SINK DISCHARGE VALVE, GRID Ø 115 mm, FLEXIBLE ROUND OVERFLOW

Purpose

For sinks with round overflow

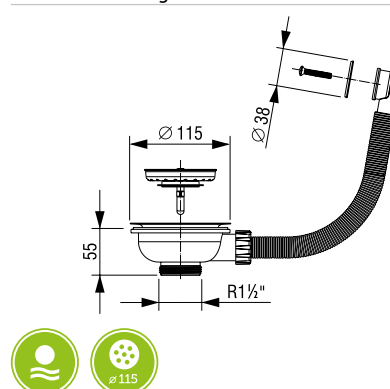

Properties

Installation on a sink
Discharge valve made of PP material
Stainless steel grid
Round overflow

Technical data

Sink opening: Ø 90 mm
Stainless steel grid: Ø 115 mm
Connection: 38.10 mm (1 1/2")

Technical drawing

3 1838912 120700

Identification No.: **195343**

Weight: 285 g

Packaging: 50 pcs/SPV

SINK DISCHARGE VALVE, GRID Ø 115 mm, FLEXIBLE RECTANGULAR OVERFLOW

Purpose

For sinks with rectangular overflow

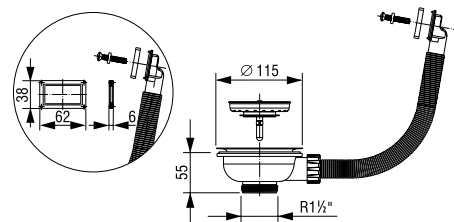

Properties

Installation on a sink
Discharge valve made of PP material
Stainless steel grid
Rectangular overflow

Technical data

Sink opening: Ø 90 mm
Stainless steel grid: Ø 115 mm
Connection: 38.10 mm (1 1/2")

Technical drawing

Identification No.: **196976**

Weight: 312 g

Packaging: 30 pcs/SPV

SINK TRAP - SINGLE, GRID Ø 70 mm

Purpose

For sinks

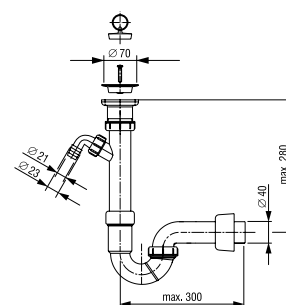

Properties

Installation on a single sink
Trap made of PP material
Stainless steel grid
Drain plug
Dishwasher connection

Technical data

Sink opening: Ø 52 mm
Stainless steel grid: Ø 70 mm
Drain pipe: Ø 40 mm

Technical drawing

Identification No.: **196760**

Weight: 394 g

Packaging: 25 pcs/SPV

SINK TRAP - SINGLE, GRID Ø 70 mm, VERTICAL RECTANGULAR OVERFLOW

Purpose

For sinks with rectangular overflow

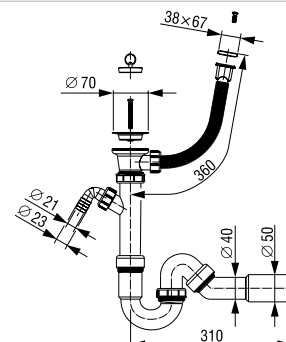

Properties

Installation on a single sink
Trap made of PP material
Stainless steel grid
Drain plug
Dishwasher connection
Vertical rectangular overflow

Technical data

Sink opening: Ø 52 mm
Stainless steel grid: Ø 70 mm
Drain pipe: Ø 40/50 mm

Technical drawing

Identification No.: **195344**

Weight: 364 g

Packaging: 30 pcs/SPV

SINK TRAP - SINGLE, GRID Ø 70 mm, ROUND OVERFLOW

Purpose

For sinks with round overflow

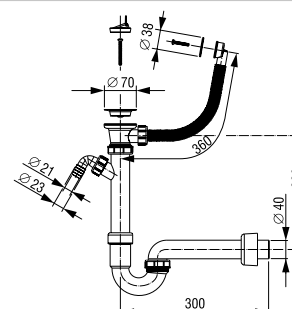

Properties

Installation on a single sink
Trap made of PP material
Stainless steel grid
Drain plug
Dishwasher connection
Round overflow

Technical data

Sink opening: Ø 52 mm
Stainless steel grid: Ø 70 mm
Drain pipe: Ø 40 mm

Technical drawing

Identification No.: 197057
Weight: 236 g
Packaging: 35 pcs/SPV

SINK TRAP - SINGLE, WITHOUT DISCHARGE VALVE

Purpose

For sinks

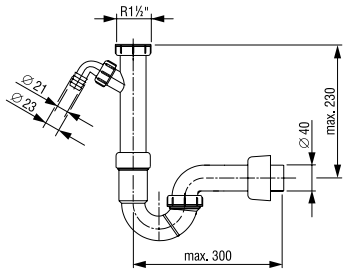

Properties

Installation on a sink discharge valve
Trap made of PP material
Dishwasher connection
Without a discharge valve

Technical data

Connection: 38.10 mm (1 1/2")
Drain pipe: Ø 40 mm

Technical drawing

3 1838912 1662835

Identification No.: 195334
Weight: 374 g
Packaging: 30 pcs/SPV

SINK TRAP - SINGLE, GRID Ø 70 mm, RECTANGULAR OVERFLOW

Purpose

For sinks with rectangular overflow

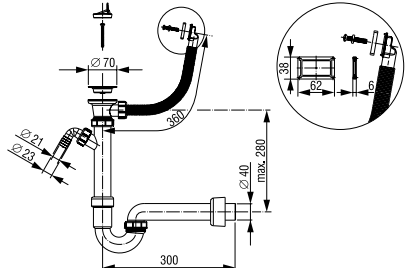

Properties

Installation on a single sink
Trap made of PP material
Stainless steel grid
Drain plug
Dishwasher connection
Rectangular overflow

Technical data

Sink opening: Ø 52 mm
Stainless steel grid: Ø 70 mm
Drain pipe: Ø 40 mm

Technical drawing

3 1838912 120311

Identification No.: 196547
Weight: 259 g
Packaging: 35 pcs/SPV

SINK TRAP - SINGLE, WITHOUT DISCHARGE VALVE

Purpose

For sinks

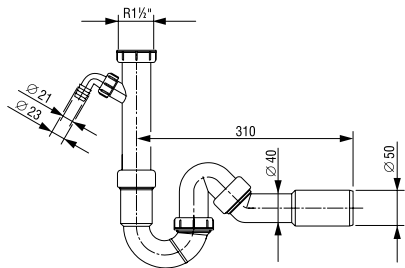

Properties

Installation on a sink discharge valve
Trap made of PP material
Dishwasher connection
Without a discharge valve

Technical data

Connection: 38.10 mm (1 1/2")
Drain pipe: Ø 40/50 mm

Technical drawing

3 1838912 1487964

Identification No.: 195990
Weight: 313 g
Packaging: 20 pcs/SPV

SINK TRAP - SINGLE, WITHOUT DISCHARGE VALVE

Purpose

For sinks

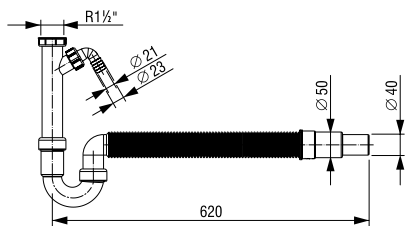

Properties

Installation on a sink discharge valve
Trap made of PP material
Flexible drain pipe
Dishwasher connection
Without a discharge valve

Technical data

Connection: 38.10 mm (1 1/2")
Drain pipe: Ø 40/50 mm

Technical drawing

3 1838912 1161505

Identification No.: 196026

Weight: 376 g

Packaging: 25 pcs/SPV

SINK TRAP - SINGLE, GRID Ø 70 mm

Purpose

For sinks

Properties

Installation on a single sink

Trap made of PP material

Stainless steel grid

Drain plug

Dishwasher connection

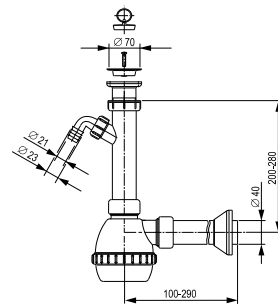

Technical data

Sink opening: Ø 52 mm

Stainless steel grid: Ø 70 mm

Drain pipe: Ø 40 mm

Technical drawing

Identification No.: 196492

Weight: 436 g

Packaging: 30 pcs/SPV

SINK TRAP - SINGLE, GRID Ø 115 mm

Purpose

For sinks

Properties

Installation on a single sink

Trap made of PP material

Stainless steel grid

Dishwasher connection

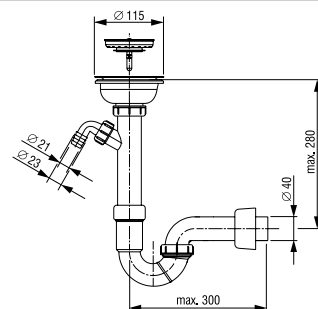

Technical data

Sink opening: Ø 90 mm

Stainless steel grid: Ø 115 mm

Drain pipe: Ø 40 mm

Technical drawing

Identification No.: 195570

Weight: 591 g

Packaging: 25 pcs/SPV

SINK TRAP - SINGLE, GRID Ø 115 mm, VERTICAL RECTANGULAR OVERFLOW

Purpose

For sinks with rectangular overflow

Properties

Installation on a single sink

Trap made of PP material

Stainless steel grid

Dishwasher connection

Vertical rectangular overflow

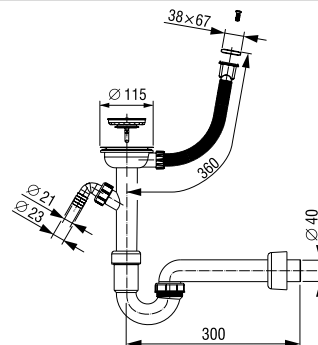

Technical data

Sink opening: Ø 90 mm

Stainless steel grid: Ø 115 mm

Drain pipe: Ø 40 mm

Technical drawing

Identification No.: 195372

Weight: 510 g

Packaging: 25 pcs/SPV

SINK TRAP - SINGLE, GRID Ø 115 mm, ROUND OVERFLOW

Purpose

For sinks with round overflow

Properties

Installation on a single sink

Trap made of PP material

Stainless steel grid

Dishwasher connection

Round overflow

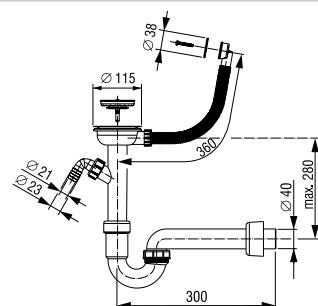

Technical data

Sink opening: Ø 90 mm

Stainless steel grid: Ø 115 mm

Drain pipe: Ø 40 mm

Technical drawing

Identification No.: 195558
Weight: 519 g
Packaging: 20 pcs/SPV

SINK TRAP - SINGLE, GRID Ø 115 mm, RECTANGULAR OVERFLOW

Purpose

For sinks with rectangular overflow

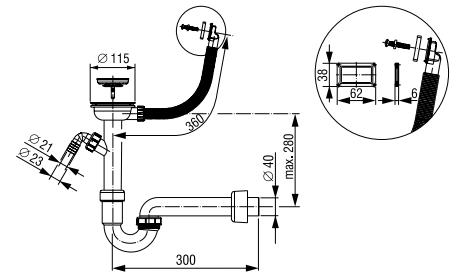

Properties

Installation on a single sink
Trap made of PP material
Stainless steel grid
Dishwasher connection
Rectangular overflow

Technical data

Sink opening: Ø 90 mm
Stainless steel grid: Ø 115 mm
Drain pipe: Ø 40 mm

Technical drawing

3 183891 2141927

Identification No.: 196975
Weight: 458 g
Packaging: 20 pcs/SPV

SINK TRAP - DUAL, GRID Ø 70 mm

Purpose

For sinks

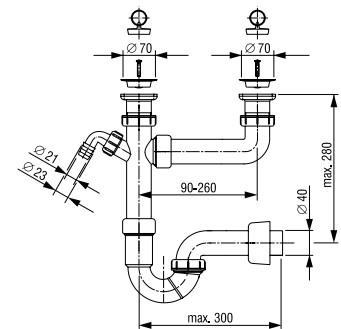

Properties

Installation on a dual sink
Trap made of PP material
Stainless steel grids
Drain plugs
Dishwasher connection

Technical data

Sink openings: Ø 52 mm
Stainless steel grids: Ø 70 mm
Drain pipe: Ø 40 mm

Technical drawing

3 183891 215959731

Identification No.: 195345
Weight: 547 g
Packaging: 20 pcs/SPV

SINK TRAP - DUAL, GRID Ø 70 mm, RECTANGULAR OVERFLOW

Purpose

For sinks with rectangular overflow

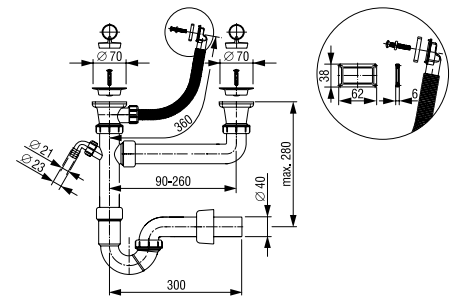

Properties

Installation on a dual sink
Trap made of PP material
Stainless steel grids
Drain plugs
Dishwasher connection
Rectangular overflow

Technical data

Sink openings: Ø 52 mm
Stainless steel grids: Ø 70 mm
Drain pipe: Ø 40 mm

Technical drawing

3 183891 2120809

Identification No.: 196972
Weight: 546 g
Packaging: 20 pcs/SPV

SINK TRAP - DUAL, GRID Ø 70 mm

Purpose

For sinks

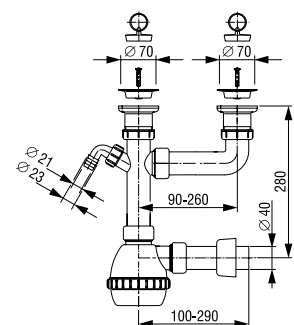

Properties

Installation on a dual sink
Trap made of PP material
Stainless steel grids
Drain plugs
Dishwasher connection

Technical data

Sink openings: Ø 52 mm
Stainless steel grids: Ø 70 mm
Drain pipe: Ø 40 mm

Technical drawing

3 183891 215959535

3 838912 115515

Identification No.: **195284**

Weight: 733 g

Packaging: 15 pcs/SPV

SINK TRAP - DUAL, GRID Ø 115 mm**Purpose**

For sinks

Properties

Installation on a dual sink

Trap made of PP material

Stainless steel grids

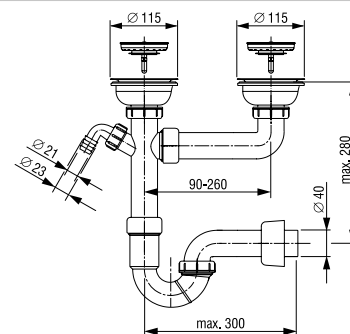

Dishwasher connection

Technical data

Sink openings: Ø 90 mm

Stainless steel grids: Ø 115 mm

Drain pipe: Ø 40 mm

Technical drawing

3 838912 120816

Identification No.: **195346**

Weight: 609 g

Packaging: 20 pcs/SPV

**SINK TRAP - DUAL, GRID Ø 70 mm,
RECTANGULAR OVERFLOW****Purpose**

For sinks with dual rectangular overflow

Properties

Installation on a dual sink

Trap made of PP material

Stainless steel grids

Drain plugs

Dishwasher connection

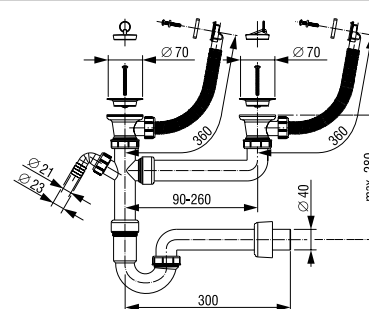

Dual rectangular overflow

Technical data

Sink openings: Ø 52 mm

Stainless steel grids: Ø 70 mm

Drain pipe: Ø 40 mm

Technical drawing

3 838912 142016

Identification No.: **195559**

Weight: 816 g

Packaging: 15 pcs/SPV

**SINK TRAP - DUAL, GRID Ø 115 mm,
RECTANGULAR OVERFLOW****Purpose**

For sinks with rectangular overflow

Properties

Installation on a dual sink

Trap made of PP material

Stainless steel grids

Dishwasher connection

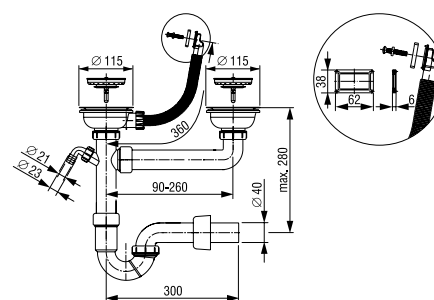

Rectangular overflow

Technical data

Sink openings: Ø 90 mm

Stainless steel grids: Ø 115 mm

Drain pipe: Ø 40 mm

Technical drawing

3 838912 148798

Identification No.: **196549**

Weight: 371 g

Packaging: 25 pcs/SPV

**SINK TRAP - SINGLE, WITHOUT
DISCHARGE VALVE****Purpose**

For sinks

Properties

Installation on a single sink

Trap made of PP material

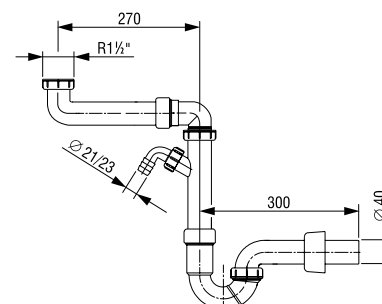

Dishwasher connection

Without a discharge valve

Technical data

Drain pipe: Ø 40 mm

Connector: 38,10 mm (1 1/2")

Technical drawing

Identification No.: 195151

Weight: 440 g

Packaging: 20 pcs/SPV

**SINK TRAP - DUAL, WITHOUT
DISCHARGE VALVES**

Purpose

For sinks

Properties

Installation on a dual sink

Trap made of PP material

Dishwasher connection

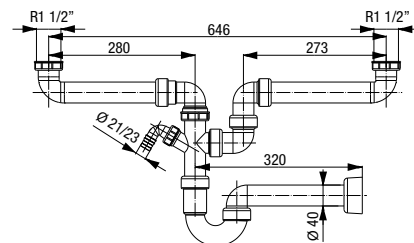

Without a discharge valve

Technical data

Drain pipe: Ø 40 mm

Connector: 38.10 mm (1 1/2")

Technical drawing

3 838912 1006325

Identification No.: 196613

Weight: 223 g

Packaging: 40 pcs/SPV

**WASHBASIN TRAP, GRID Ø 60 mm,
OUTFLOW Ø 32 mm**

Purpose

For washbasins

Properties

Installation on a washbasin

Trap made of PP material

Stainless steel grid

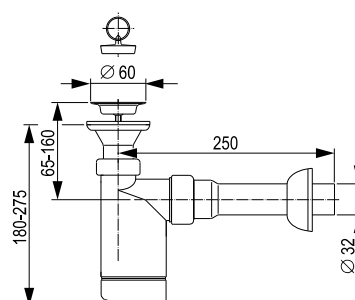

Drain plug

Technical data

Stainless steel grid: Ø 60 mm

Drain pipe: Ø 32 mm

Technical drawing

3 838912 1490124

Identification No.: 195273

Weight: 240 g

Packaging: 40 pcs/SPV

**WASHBASIN TRAP, GRID Ø 60 mm,
OUTFLOW Ø 40 mm**

Purpose

For washbasins

Properties

Installation on a washbasin

Trap made of PP material

Stainless steel grid

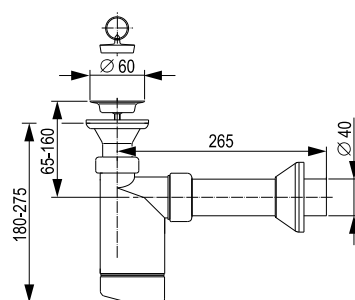

Drain plug

Technical data

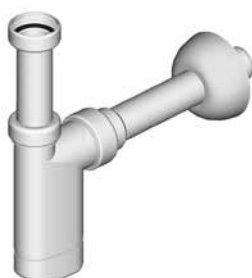

Stainless steel grid: Ø 60 mm

Drain pipe: Ø 40 mm

Technical drawing

3 838912 1115102

Identification No.: 196614

Weight: 177 g

Packaging: 40 pcs/SPV

**WASHBASIN TRAP, WITHOUT
DISCHARGE VALVE, OUTFLOW Ø 32 mm**

Purpose

For washbasins

Properties

Installation on a washbasin

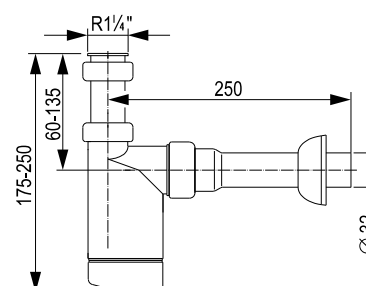

Trap made of PP material

Without a discharge valve

Technical data

Drain pipe: Ø 32 mm

Technical drawing

3 838912 1490131

3 838912 1147905

WASHBASIN TRAP, WITHOUT DISCHARGE VALVE, OUTFLOW Ø 40 mm

Purpose

For washbasins

Properties

Installation on a washbasin
Trap made of PP material
Without a discharge valve

Technical data

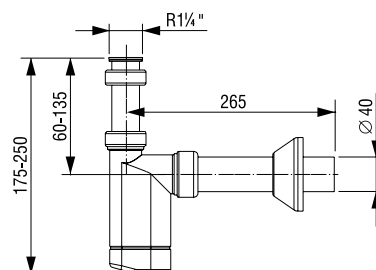

Drain pipe: Ø 40 mm

Identification No.: **195668**

Weight: 194 g

Packaging: 40 pcs/SPV

Technical drawing

3 838912 1145413

WASHBASIN TRAP, GRID Ø 60 mm, OUTFLOW Ø 32 mm

Purpose

For washbasins

Properties

Installation on a washbasin
Trap made of PP material
Stainless steel grid
Drain plug
Dishwasher connection

Technical data

Stainless steel grid: Ø 60 mm

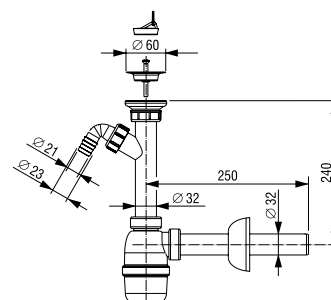

Drain pipe: Ø 32 mm

Identification No.: **195607**

Weight: 277 g

Packaging: 40 pcs/SPV

Technical drawing

3 838912 1119711

WASHBASIN TRAP, GRID Ø 60 mm, OUTFLOW Ø 32 mm

Purpose

For washbasins

Properties

Installation on a washbasin
Trap made of PP material
Stainless steel grid
Drain plug

Technical data

Stainless steel grid: Ø 60 mm

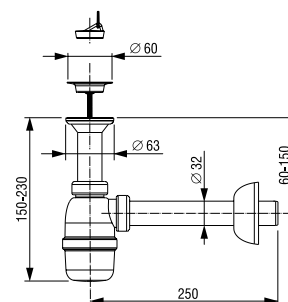

Drain pipe: Ø 32 mm

Identification No.: **201647**

Weight: 213 g

Packaging: 40 pcs/SPV

Technical drawing

3 838912 1121325

WASHBASIN TRAP, WITHOUT DISCHARGE VALVE, OUTFLOW Ø 32 mm

Purpose

For washbasins

Properties

Installation on a washbasin
Trap made of PP material
Without a discharge valve

Technical data

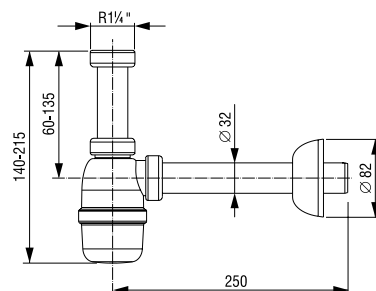

Drain pipe: Ø 32 mm

Identification No.: **195349**

Weight: 167 g

Packaging: 40 pcs/SPV

Technical drawing

Identification No.: 196617

Weight: 235 g

Packaging: 40 pcs/SPV

WASHBASIN TRAP, WITHOUT DISCHARGE VALVE, OUTFLOW Ø 32 mm

Purpose

For washbasins

Properties

Installation on a washbasin

Trap made of PP material

Stainless steel grid

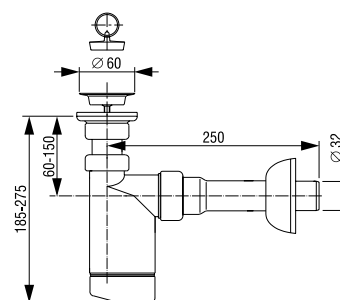

Drain plug

Technical data

Stainless steel grid: Ø 60 mm

Drain pipe: Ø 32 mm

Technical drawing

3 1838912 1490384

Identification No.: 201585

Weight: 106 g

Packaging: 20 pcs/NZ-1

AIR CONDITIONER TRAP, EXPOSED

Purpose

For air conditioner units, convectors ...

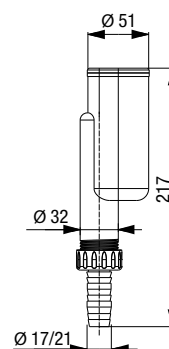

Properties

Closing the drain with a floating ball

Technical data

Drain: Ø 17/21 mm and Ø 32 mm

Technical drawing

3 1838912 1007506

Identification No.: 201586

Weight: 380 g

Packaging: 10 pcs/NZ-1

AIR CONDITIONER TRAP, CONCEALED

Purpose

For air conditioner units, convectors ...

Properties

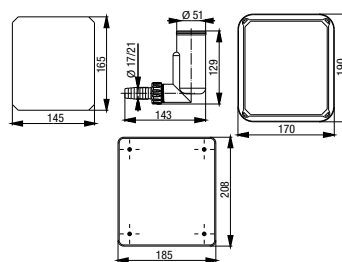

Wall mounting

Closing the drain with a floating ball

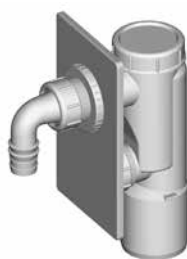

Technical data

Drain: Ø 17/21 mm and Ø 32 mm

Technical drawing

3 1838912 1007513

Identification No.: 195546

Weight: 177 g

Packaging: 50 pcs/SPV

WASHING MACHINE TRAP, CONCEALED, OUTFLOW Ø 50 mm

Purpose

For washing machines

Wall mounting

Properties

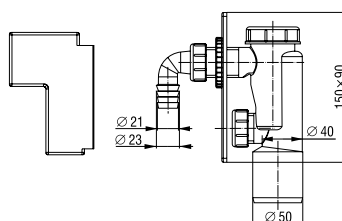

Trap made of PP material

Stainless steel decorative panel

Technical data

Drain pipe: Ø 50 mm

Technical drawing

3 1838912 1408211

URINAL TRAP, VERTICAL CONNECTION, OUTFLOW Ø 40 mm

Purpose

For urinals

Properties

Installation on an urinal
Vertical connection of the urinal
Trap made of PP material
Seal included

Technical data

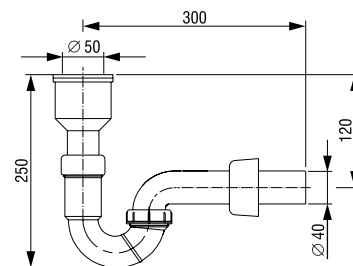

Drain pipe: Ø 40 mm

Identification No.: **196030**

Weight: 249 g

Packaging: 35 pcs/SPV

Technical drawing

URINAL TRAP, HORIZONTAL CONNECTION, OUTFLOW Ø 50 mm

Purpose

For urinals

Properties

Installation on an urinal
Horizontal connection of the urinal
Trap made of PP material
Seal included

Technical data

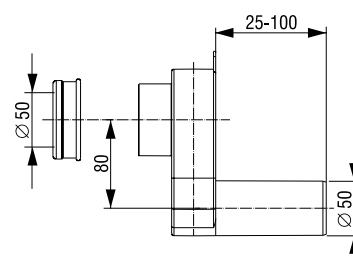

Drain pipe: Ø 50 mm

Identification No.: **195477**

Weight: 166 g

Packaging: 40 pcs/SPV

Technical drawing

BIDET TRAP, WITHOUT DISCHARGE VALVE, OUTFLOW Ø 40 mm

Purpose

For bidets

Properties

Installation on a bidet
Trap made of PP material
Without a discharge valve

Technical data

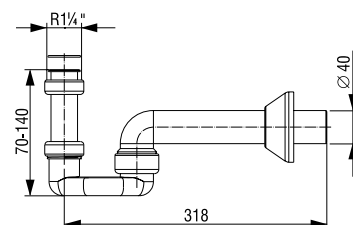

Drain pipe: Ø 40 mm

Identification No.: **195414**

Weight: 173 g

Packaging: 35 pcs/SPV

Technical drawing

BIDET TRAP, GRID Ø 60 mm, OUTFLOW Ø 40 mm

Purpose

For bidets

Properties

Installation on a bidet
Trap made of PP material
Stainless steel grid
Drain plug

Technical data

Stainless steel grid: Ø 60 mm

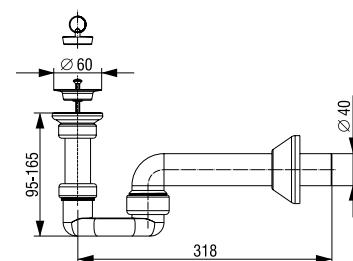

Drain pipe: Ø 40 mm

Identification No.: **195537**

Weight: 230 g

Packaging: 35 pcs/SPV

Technical drawing

Identification No.: 196029

Weight: 239 g

Packaging: 40 pcs/SPV

BIDET TRAP, GRID Ø 60 mm, OUTFLOW Ø 40 mm

Purpose

For bidets

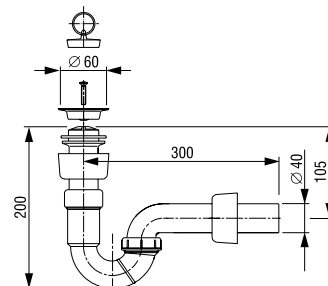

Properties

Installation on a bidet
Trap made of PP material
Stainless steel grid
Drain plug

Technical data

Stainless steel grid: Ø 60 mm
Drain pipe: Ø 40 mm

Technical drawing

3 183891 235831

Identification No.: 196950

Weight: 147 g

Packaging: 60 pcs/SPV

SHOWER DISCHARGE VALVE, GRID Ø 70 mm, VERTICAL OUTFLOW

Purpose

For shower bases

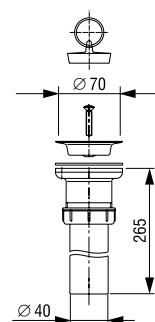

Properties

Installation on a shower base
Trap made of PP material
Stainless steel grid
Drain plug
Vertical outlet

Technical data

Shower base opening: Ø 50 mm
Stainless steel grid: Ø 70 mm
Drain pipe: Ø 40 mm

Technical drawing

3 183891 25820651

Identification No.: 195682

Weight: 410 g

Packaging: 30 pcs/SPV

SHOWER TRAP, COVER LID Ø 115 mm

Purpose

For shower bases

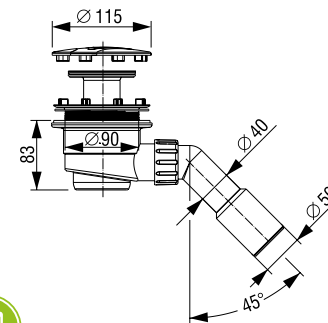

Properties

Installation on a shower base
Trap made of PP material
Chrome plated decorative cover lid
Easy trap cleaning

Technical data

Shower base opening: Ø 90 mm
Decorative cover lid: Ø 115 mm
Drain pipe: Ø 40/50 mm

Technical drawing

3 183891 2148513

Identification No.: 605926

Weight: 380 g

Packaging: 30 pcs/box
(595 x 395 x 425 mm)

SHOWER TRAP, COVER LID Ø 120 mm

Purpose

For shower bases

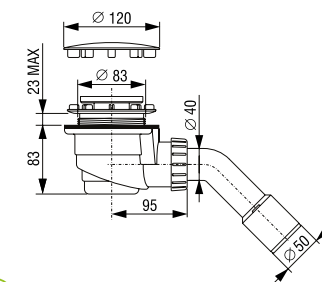

Properties

Installation on a shower base
Trap made of ABS material
Stainless steel decorative cover lid
Easy trap cleaning

Technical data

Shower base opening: Ø 90 mm
Decorative cover lid: Ø 120 mm
Drain pipe Ø 40/50 mm
Water flow: 34 l/min

Technical drawing

3 183891 240283271

Identification No.: **605923**

Weight: 290 g

Packaging: 50 pcs/box
(595 x 395 x 425 mm)

SHOWER TRAP, COVER LID Ø 82 mm

Purpose

For shower bases

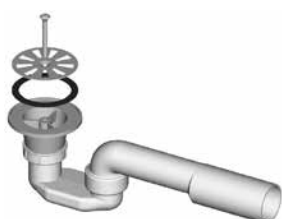

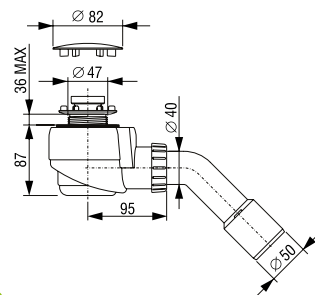

Properties

Installation on a shower base
Trap made of ABS material
Stainless steel decorative cover lid
Easy trap cleaning

Technical data

Shower base opening: Ø 50 mm
Decorative cover lid: Ø 82 mm
Drain pipe: Ø 40/50 mm
Water flow: 34 l/min

Technical drawing

Identification No.: **196840**

Weight: 207 g

Packaging: 40 pcs/SPV

SHOWER TRAP, GRID Ø 80 mm, OUTFLOW Ø 40/50 mm

For shower bases

Purpose

For shower bases

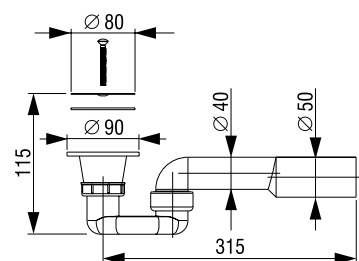

Properties

Installation on a shower base
Trap made of PP material
Stainless steel grid

Technical data

Shower base opening: Ø 60 mm
Stainless steel grid: Ø 80 mm
Drain pipe: Ø 40/50 mm

Technical drawing

Identification No.: **195363**

Weight: 203 g

Packaging: 40 pcs/SPV

SHOWER TRAP, GRID Ø 75 mm, OUTFLOW Ø 40/50 mm

Purpose

For shower bases

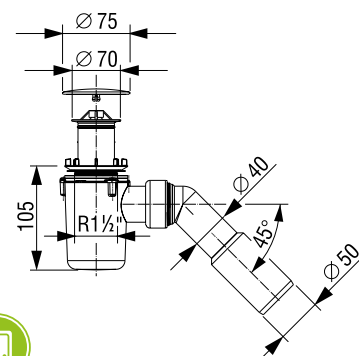

Properties

Installation on a shower base
Trap made of PP material
Chrome plated decorative cover lid
Easy trap cleaning

Technical data

Shower base opening: Ø 50 mm
Decorative cover lid: Ø 75 mm
Drain pipe: Ø 40/50 mm

Technical drawing

Identification No.: **196031**

Weight: 168 g

Packaging: 60 pcs/SPV

SHOWER DISCHARGE VALVE, GRID Ø 70 mm, OUTFLOW Ø 40 mm

Purpose

For shower bases

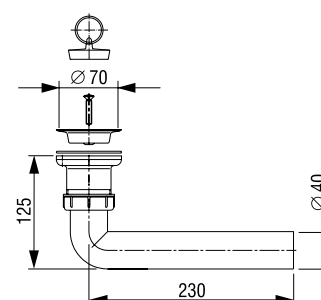

Properties

Installation on a shower base
Trap made of PP material
Stainless steel grid
Drain plug

Technical data

Shower base opening: Ø 50 mm
Stainless steel grid: Ø 70 mm
Drain pipe: Ø 40 mm

Technical drawing

Identification No.: **196687**

Weight: 160 g

Packaging: 60 pcs/SPV

SHOWER DISCHARGE VALVE, GRID Ø 70 mm, OUTFLOW Ø 40/50 mm

Purpose

For shower bases

Properties

Installation on a shower base

Trap made of PP material

Stainless steel grid

Drain plug

Low installation height

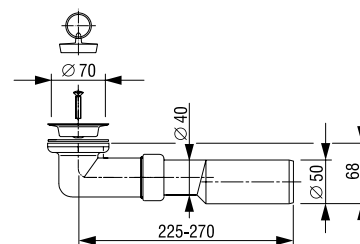

Technical data

Shower base opening: Ø 50 mm

Stainless steel grid: Ø 70 mm

Drain pipe: Ø 40/50 mm

Technical drawing

3 183891 21493835

Identification No.: **196028**

Weight: 231 g

Packaging: 40 pcs/SPV

SHOWER TRAP, GRID Ø 70 mm, OUTFLOW Ø 40/50 mm

Purpose

For shower bases

Properties

Installation on a shower base

Trap made of PP material

Stainless steel grid

Drain plug

Low installation height

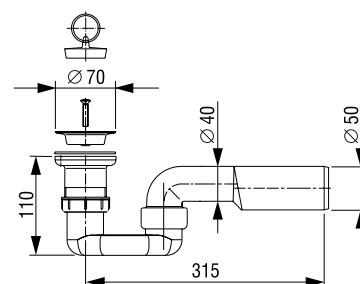

Technical data

Shower base opening: Ø 50 mm

Stainless steel grid: Ø 70 mm

Drain pipe: Ø 40/50 mm

Technical drawing

3 183891 21235824

Identification No.: **196663**

Weight: 563 g

Packaging: 20 pcs/SPV

BATHTUB TRAP, AUTOMATIC, H=450 mm, GRID Ø 70 mm

Purpose

For bathtubs

Properties

Installation on a bathtub

Opening and closing with a button

Trap made of PP material

Stainless steel grid

Metal button, chrome plated

Metal drain plug, chrome plate

Technical data

Bath tub opening: Ø 50 mm

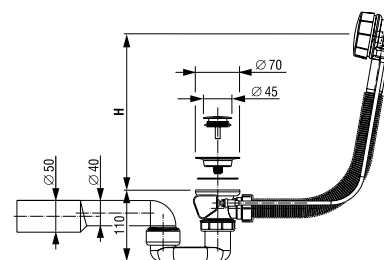

Stainless steel grid: Ø 70 mm

Drain plug: Ø 45 mm

Pull cable connection, H = 450 mm

Drain pipe: Ø 40/50 mm

Technical drawing

3 183891 21492135

Identification No.: **196915**

Weight: 592 g

Packaging: 20 pcs/SPV

BATHTUB TRAP, AUTOMATIC, H=650 mm, GRID Ø 70 mm

Purpose

For bathtubs

Properties

Installation on a bathtub

Opening and closing with a button

Trap made of PP material

Stainless steel grid

Metal button, chrome plated

Metal drain plug, chrome plate

Technical data

Bath tub opening: Ø 50 mm

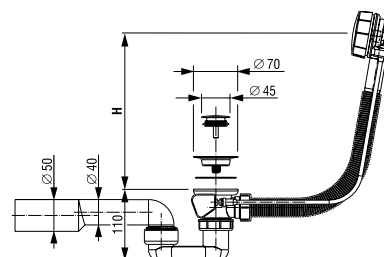

Stainless steel grid: Ø 70 mm

Drain plug: Ø 45 mm

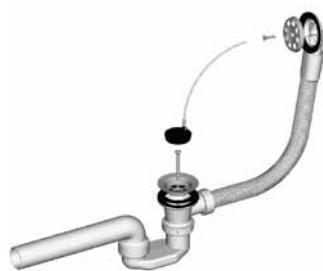

Pull cable connection, H = 650 mm

Drain pipe: Ø 40/50 mm

Technical drawing

3 183891 21502254

Identification No.: 196504

Weight: 366 g

Packaging: 25 pcs/SPV

BATHTUB TRAP, H=650 mm, GRID Ø 70 mm, OUTFLOW Ø 40 mm

Purpose

For bathtubs

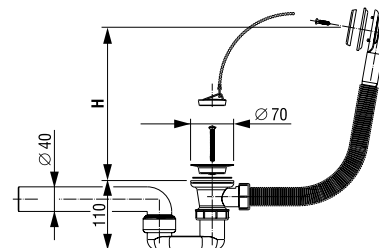

Properties

Installation on a bathtub
Trap made of PP material
Stainless steel grid
Drain plug
With overflow

Technical data

Bath tub opening: Ø 50 mm
Stainless steel grid: Ø 70 mm
H = 650 mm
Drain pipe: Ø 40 mm

Technical drawing

Identification No.: 196916

Weight: 580 g

Packaging: 20 pcs/SPV

BATHTUB TRAP, AUTOMATIC, H=650 mm, GRID Ø 70 mm

Purpose

For bathtubs

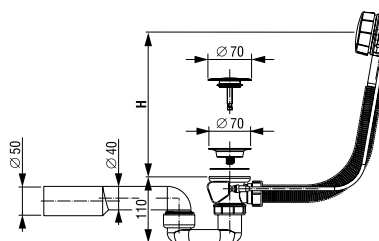

Properties

Installation on a bathtub
Opening and closing with a button
Trap made of PP material
Stainless steel grid
Metal button, chrome plated
Metal drain plug, chrome plate

Technical data

Bath tub opening: Ø 50 mm
Stainless steel grid: Ø 70 mm
Drain plug: Ø 70 mm
Pull cable connection, H = 650 mm
Drain pipe: Ø 40/50 mm

Technical drawing

Identification No.: 196664

Weight: 548 g

Packaging: 20 pcs/SPV

BATHTUB TRAP, AUTOMATIC, H=450 mm, GRID Ø 70 mm

Purpose

For bathtubs

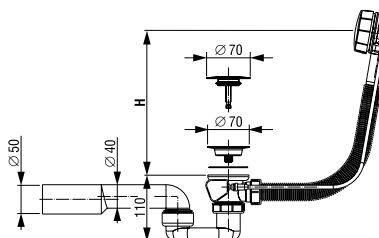

Properties

Installation on a bathtub
Opening and closing with a button
Trap made of PP material
Stainless steel grid
Metal button, chrome plated
Metal drain plug, chrome plate

Technical data

Bath tub opening: Ø 50 mm
Stainless steel grid: Ø 70 mm
Drain plug: Ø 70 mm
Pull cable connection, H = 450 mm
Drain pipe: Ø 40/50 mm

Technical drawing

Identification No.: 196753

Weight: 352 g

Packaging: 25 pcs/SPV

BATHTUB TRAP, H=450 mm, GRID Ø 70 mm, OUTFLOW Ø 40/50 mm

Purpose

For bathtubs

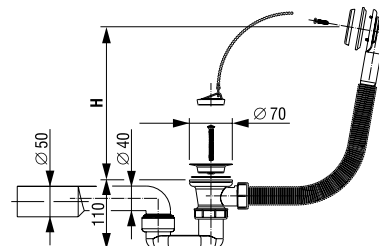

Properties

Installation on a bathtub
Trap made of PP material
Stainless steel grid
Drain plug
With overflow

Technical data

Bath tub opening: Ø 50 mm
Stainless steel grid: Ø 70 mm
H = 450 mm
Drain pipe: Ø 40/50 mm

Technical drawing

Identification No.: 196962

Weight: 289 g

Packaging: 30 pcs/SPV

BATHTUB DISCHARGE VALVE, H=450 mm, GRID Ø 70 mm, OUTFLOW Ø 40 mm

Purpose

For bathtubs

Properties

Installation on a bathtub

Trap made of PP material

Stainless steel grid

Drain plug

With overflow

Technical data

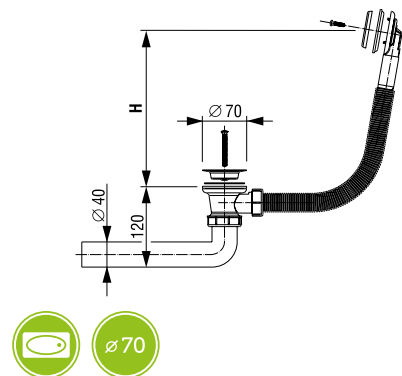

Bath tub opening: Ø 50 mm

Stainless steel grid: Ø 70 mm

H = 450 mm

Drain pipe: Ø 40 mm

Technical drawing

3 1838912 1592026

Identification No.: 262770

Weight: 338 g

Packaging: 20 pcs/box,
(595 x 395 x 425 mm)

FLOOR DRAIN, HORIZONTAL, GRID 105 x 105 mm, DRY BARRIER

Purpose

Floor installation

Properties

Floor drain trap with dry barrier

Height adjustable trap

Robust stainless steel grid

Housing made of ABS material

Horizontal drain

Technical data

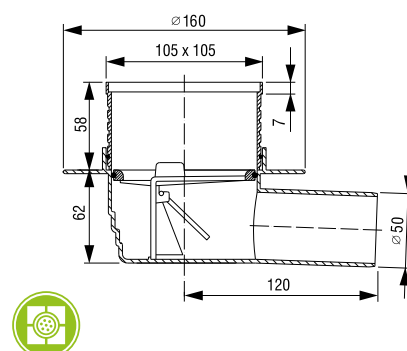

Trap height: 86–120 mm

Grid: 105 x 105 mm

Drain pipe: Ø 50 mm

Water flow: 50.5 l/min

Technical drawing

3 1838912 1018403

Identification No.: 262771

Weight: 338 g

Packaging: 20 pcs/box
(595 x 395 x 425 mm)

FILL VALVE 747, brass shank G 3/8

Identification No.:

747E-037-P20

Packing: 20 pcs./carton

Purpose

Suitable for concealed and exposed flushing cisterns
Suitable for ceramic cisterns

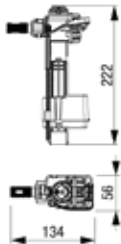

Properties

Compact and durable hydraulic filling valve
Side mount valve
Suitable for high and low pressure (restrictor added in the shank)
Extremely quiet operation (Class 1)
Short filling time
Water level adjusting screw
Anti-corrosion material
Unique self-cleaning valve mechanism
Fast and easy to install
Proven and reliable quality
Consistent performance

Technical specifications

Brass shank G 3/8 x 39 mm

Technical drawing

3 838912 106350 2

FILL VALVE 747, brass shank G 1/2

Identification No.:

747U-038-P20

Packaging: 20 pcs./carton

Purpose

Suitable for concealed and exposed flushing cisterns
Suitable for ceramic cisterns

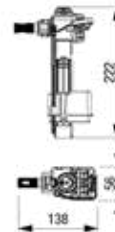

Properties

Compact and durable hydraulic filling valve
Side mount valve
Suitable for high and low pressure (restrictor added in the shank)
Extremely quiet operation (Class 1)
Short filling time
Water level adjusting screw
Anti-corrosion material
Unique self-cleaning valve mechanism
Fast and easy to install
Proven and reliable quality
Consistent performance

Technical specifications

Brass shank G 1/2 x 44 mm

Technical drawing

3 838912 106351 9

FILL VALVE 400, brass shank G 3/8

Identification No.:

400E-025-P25

Packing: 25 pcs./carton

Purpose

Suitable for exposed plastic and ceramic flushing cistern with bottom water connection

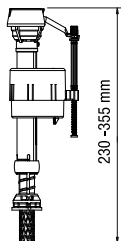

Properties

Bottom mount valve
Adjustable valve height (230 – 355 mm)
Suitable for high and low pressure
Extremely quiet operation (Class 1)
Fast filling time
Unique self-cleaning valve mechanism
Fast and easy to install
Proven and reliable quality
Consistent performance

Technical specifications

Brass shank G 3/8 x 43 mm

Technical drawing

3 838912 106345 8

FILL VALVE 400, brass shank G 1/2

Identification No.:

400U-026-P25

Packing: 25 pcs./carton

Purpose

Suitable for exposed plastic and ceramic flushing cistern with bottom water connection

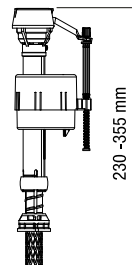

Properties

Bottom mount valve
Adjustable valve height (230 – 355 mm)
Suitable for high and low pressure
Extremely quiet operation (Class 1)
Fast filling time
Unique self-cleaning valve mechanism
Fast and easy to install
Proven and reliable quality
Consistent performance

Technical specifications

Brass shank G 1/2 x 50 mm

Technical drawing

3 838912 106347 2

FILL VALVE 400, plastic shank G 3/8

Identification No.:

400E-027-P25

Packing: 25 pcs./carton

Purpose

Suitable for exposed plastic and ceramic flushing cistern with bottom water connection

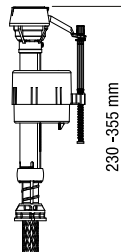

Properties

Bottom mount valve
Adjustable valve height (230 – 355 mm)
Suitable for high and low pressure
Extremely quiet operation (Class 1)
Fast filling time
Unique self-cleaning valve mechanism
Fast and easy to install
Proven and reliable quality
Consistent performance

Plastic shank G 3/8 x 43 mm

Technical drawing

3 838912 106346 5

FILL VALVE HDV, brass shank G 3/8

Identification No.:

229109

Packing: 40 pcs./carton

Purpose

Suitable for concealed and exposed flushing cisterns

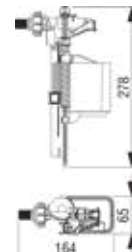

Properties

Extremely robust and durable mechanical filling valve
Side mount valve
Suitable for high and low pressure
Resistant to small-sized particles in inflow water
Extremely quiet operation (Class 1)
Short filling time
Water level adjusting screw
Fast and easy to install
Proven and reliable quality
Consistent performance

Technical specifications

Brass shank G 3/8 x 21 mm

Technical drawing

3 838912 011916

FILL VALVE HVK, brass shank G 3/8

Identification No.:

8035432795

Packing: 36 pcs./carton

Purpose

Suitable for concealed and exposed flushing cisterns

Properties

Durable hydraulic filling valve
Side mount valve
Extremely quiet operation (Class 1)
Fast filling time
Water level adjusting screw
Telescopic tube
Fast and easy to install
Proven and reliable quality
Consistent performance

Tornado Solo

Tornado Stop

Tornado Duo

**FLUSHING PLATES TORNADO SOLO and
TORNADO STOP, for start-stop flushing****FLUSHING PLATE TORNADO DUO, for dual flushing****Installation method**

Installation on concealed flushing cisterns

Properties

Material: high-quality plastic
No tools are required for installation

Technical data

For dual flushing (Tornado Duo)
For start-stop flushing (Tornado Solo or Tornado Stop)
Front side activation

The product contains

All parts required for installation and mounting are supplied with the product
Supporting frame, two fixing elements, adjusting screws

Suitable for flushing cisterns 9021 (Tornado start-stop), 9022 (Tornado Duo)

**DRAIN NOZZLE Ø 40/50 mm**

For sinks

Identification No.: 207662

Weight: 41 g

Packaging: 50 pcs/NZ-7

Technical drawing

3 838912 008725

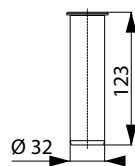

**CRIMPED TUBE Ø 32 mm**

For washbasins

Identification No.: 207661

Weight: 17 g

Packaging: 50 pcs/NZ-7

Technical drawing

3 838912 008718

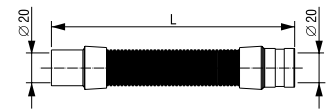

**FINNED DRAIN PIPE, L = 1500 mm, Ø 20 mm**

For washing machines

Identification No.: 196560

Weight: 125 g

Packaging: 50

Technical drawing

3 838912 1488725

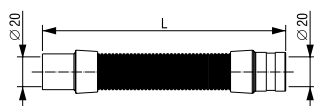

**FINNED DRAIN PIPE, L = 3000 mm, Ø 20 mm**

For washing machines

Identification No.: 196558

Weight: 221 g

Packaging: 35 pcs/SPV

Technical drawing

3 838912 1488701

Certificate of warranty of Fluidmaster ltd. Guarantees

The warranty terms apply for the below listed products sold under trademark LIV.

Subject to what is provided below, the Seller guarantees the soundness and quality of the products supplied by it for the following periods:

- Cisterns: ten (10) years, with the exception of rubber parts and electronic items (for flushing techniques), for which a guarantee period of two (2) years and one (1) year respectively applies.
- Sanitary ceramics: five (5) years.
- Connectors and discharge elbows: ten (10) years.
- Toilet seats: five (5) years.
- Acrylic shower trays and baths: ten (10) years.
- Whirlpool systems: two (2) years.
- Glass products: two (2) years.
- Traps: two (2) years.
- Shower drains: ten (10) years

The guarantee period given by the Seller is effective from the date on Seller's invoice.

The Seller may specify a different guarantee period for its products in writing.

Minor variations in quality, dimensions and colour which are technically unavoidable and generally permitted in commercial practice, and normal wear on products and product parts, cannot constitute grounds for a claim under this article.

The Buyer only has a claim against the Seller under this article if the Buyer can produce to the Seller a purchase receipt or invoice for the supplied products.

The guarantee does not apply if the defect, fault or related loss incurred is due to failure to observe the relevant installation instructions, due to an extraneous cause or improper use, or due to repairs or changes having been made to the product by a third party without the Seller's permission in writing.

The Seller will at its choice either repair faulty products free of charge within the guarantee period or replace the products in question with other sound products.

The guarantee does not apply to products that the Seller has expressly excluded from the guarantee, nor to products consisting of remainders or special batches unless the Seller has expressly stated that they are covered by guarantee.
